Rockefeller Given Edge for 1964 Bid

By JACK BELL
SEATTLE, Wash. (AP) — The quiet assumption among most Republicans attending national committee meetings here appears to be that Gov. Nelson A. Rockefeller of New York will be their 1964 presidential nominee.

Behind all the hoopla of optimistic declarations that their party is going to win control of the House and add several governor-

ships in the November election, there is soft-pedaled hotel room talk about the choice of the next man to oppose President Kennedy.

Three Escape From Alcatraz

SAN FRANCISCO (AP)—Three convicts—all bank robbers—escaped during the night from Alcatraz Federal Prison in San Francisco Bay, the prison said today.

He said they had cut away a portion of the back of their cells with a sharpened spoon.

Death Toll in Train-School Bus Crash 43

BUENOS AIRES, Argentina (AP) — Leading Argentine surgeons labored today to save many youngsters gravely injured when a commuter train rammed a school bus jammed with more than 100 school children Monday.

Two among the injured died Monday night, raising the death toll in the crash at a fog-shrouded railroad crossing to 43. Eighty-one persons, most of them children under 10, were on the injured list.

Estes Called for Marshall Probe

FRANKLIN, Tex. (AP)—Grand jurors probing the fatal shooting a year ago of Henry H. Marshall want West Texas financier Billie Sol Estes to answer questions Wednesday.

Army Loses Role in U.S. Space Work

WASHINGTON (AP)—Responsibility for developing the spacecraft for a military communications satellite system has been transferred from the Army to the Air Force.

A subpoena was sent to Sheriff A. B. Nail in Pecos, Estes' home town. Nail said he had been unable to find Estes but lawyer John Dennison told him Estes would accept service of the summons.

The Robertson County grand jury reopened the Marshall case three weeks ago. Marshall's body, pierced by five bullets, was found on his ranch near here June 3, 1961. The inquest verdict was suicide. A bolt action rifle was found near the body.

Agreement on Laos Signed By 3 Princes

By PETER ARNETT
VIENTIANE, Laos (AP)—The spotlight on Laos will shift briefly back to Geneva now that the rival princes have agreed on a coalition government in the name of national unity. They formally signed the agreement today.

Viet Reds Say Captured GI Denounces U.S.

SAIGON, South Viet Nam (AP) — Vietnamese Communists have broadcast what they claimed to be a captive American soldier's statement denouncing "the criminal maneuvers of U.S. imperialism" in South Viet Nam.

The soldier was identified as Spec. 4 George F. Fryett Jr., 26, whose parents live in California. He is the only U.S. serviceman listed as missing among the 6,500 U.S. troops stationed in South Viet Nam to help President Ngo Dinh Diem's government fight the Communist Viet Cong guerrillas.

Fryett, a clerk in the U.S. Military Assistance and Advisory Group in Saigon, disappeared last Dec. 24. He reportedly went by bicycle to a village in Bien Hoa Province, north of Saigon, and apparently was captured by the Viet Cong.

The Communist "Liberation Radio," believed to be in North Viet Nam, broadcast Fryett's purported statement Saturday. It was picked up by U.S. Embassy monitors in Saigon and a translation was made available today.

According to the broadcast Fryett appealed to the Communists for leniency and asked to be returned to "my compatriots' community" where "I want to be able to do something good for your people, such as by informing the American people of the presence of and illegal acts by the U.S. troops in South Viet Nam."

U.S. Embassy officials stressed that there was no confirmation that Fryett had made the statement.

U.S. officials noted that the Communists claimed to have obtained similar statements from two other American soldiers captured and released in May, but that the soldiers insisted they signed nothing.

U.S. Army officials said Fryett's father, George F. Fryett Sr., lives in Long Beach, Calif., and his mother, Marcella Schultz Bruce, lives in Los Angeles.

Russia Sends 4th Ship Into N-Test Area

By FRED S. HOFFMAN
WASHINGTON (AP) — The Soviet Union has sent a fourth ship bristling with scientific instruments to spy on U.S. nuclear tests in the Pacific.

This addition to the Russian snoop patrol was disclosed today as the United States prepared for a second try at firing a nuclear device at a high altitude over Johnston Island.

Informal sources indicated the shot—biggest of the U.S. test series—is likely late this week. The Federal Aviation Agency said Monday the shot more than 500 miles over the Johnston Island test area is expected to blot out instantly all high frequency radio communications in the Pacific.

Some of the disruption will last 32 hours or longer, the FAA said.

The first high-altitude test shot ended disastrously June 4 when a Thor missile carrying the warhead aloft was purposely destroyed after the rocket tracking system developed trouble.

The presence of three Soviet instrument ships within 10 to 15 miles of the Pacific test area was announced by the Defense Department 18 days ago. It said they were obviously on a large-scale military intelligence collection mission.

3 N.J. Troopers Crushed in Auto

KEARNY, N. J. (AP) — Three state troopers were crushed to death when a bus rammed their patrol car and plowed over them on the New Jersey Turnpike Monday in an accident involving four vehicles.

The driver of the bus, Raymond E. Peters Jr., 35, Easton, Pa., told police investigators that his brakes failed. The big Royal Blue Coach Inc. vehicle struck a passenger car, careened into the police car and sent it smashing into a dump truck, then rode over the police cruiser and settled atop it.

The bus underwent a thorough check by investigators from the state police, the Public Utility Commission and the Interstate Commerce Commission.

The dead were troopers Joseph De Frino, 25, Lyndhurst, who was driving the cruiser, Milan Simcak, 36, Paramus, and Arthur J. Abagnale Jr., 26, Cliffside Park.

Five persons were injured — Peters, the two passengers in the bus, a rider in the private car and the driver of the dump truck.

White Bear Lake Woman Strangled

ST. PAUL (AP) — A woman was strangled in her home in suburban White Bear Lake early today when her deputy sheriff husband who had fled from the scene was picked up later, the victim of an overdose of drugs.

Authorities said the body of Mrs. Orlensia Stache, 36, was found in the couple's home after the eldest of three children, Richard, 12, had phoned police.

Under guard at Ancker Hospital was Earl Stache, 35, a Ramsey County deputy sheriff who served as a jailer.

3 Die as Fire Destroys Trailer

PORTSMOUTH, N.H. (AP) — One man and two women died today when fire destroyed a trailer owned by an enlisted man assigned to the Navy submarine Skipjack.

Police identified the dead as Jimmy J. Rollard, 23, a communications specialist aboard the Skipjack at the Portsmouth Naval Base; his wife, Sandra, 20; and Sally A. Almer, 22, of Hampton, N.H.

Head of U.S. Steel Leads Study Group

By LARRY OSIUS
WASHINGTON (AP) — A group of top ranking businessmen has agreed to examine the Kennedy administration's steps to halt the balance of payments deficit and to make recommendations on how to stop the resulting flow of U.S. gold abroad.

The businessmen, headed by U.S. Steel Corp. Chairman Roger M. Blough, conferred with President Kennedy for an hour Monday night. Afterward, White House press secretary Pierre Salinger said they had agreed to make the balance of payments study.

The meeting followed Kennedy's appeal Monday in a Yale University commencement speech for cooperation between the government and all segments of the economy.

Salinger said of the meeting: "The President feels that this kind of cooperation is most important and is the kind of cooperation that can be most helpful between business and the government."

In his speech earlier in the day Kennedy had declared: "The solid ground of mutual confidence is the necessary partnership of government with all sectors of our society in the steady quest for economic progress."

The President also said those who blame his administration for the sharp decline in stock prices are raising a false issue.

Two of his most frequent Republican critics—Senate Minority Leader Everett M. Dirksen of Illinois and House Minority Leader Charles Halleck of Indiana—hammered away again Monday on the subject of the economy at a news conference.

"It has become clear that the Kennedy administration has got America moving again—but in the wrong direction," Dirksen said. "The stock market's crash has supplied the evidence."

Halleck said Kennedy's proposal to cut income taxes next year: "Evidently this means that Mr. Kennedy intends to cut taxes and spend at the same time. We say the two are contradictory so far as promoting confidence is concerned and can only produce intolerable deficits that will further depress the economy."

Halleck said Republicans do favor an overhaul of the tax system to promote economic growth but "the first approach to real savings in tax dollars must be a serious effort to control federal spending."

Battle of the Bowls

Snake Disrupts Dormitory Life

PASADENA, Calif. (AP)—College student Mike Krieger wanted to help a friend's snake work up an

appetite, so he put the 7-foot anaconda in a bathtub of warm water in his apartment Sunday.

As frequently happens when someone is in the tub, the phone rang.

Krieger, 20, returned to find the anaconda—which crushes its prey like the boa constrictor—disappearing down the toilet. He grabbed its tail and started pulling.

In the next apartment, Bob Tiltworth, a graduate student at California Institute of Technology where Krieger is an undergraduate, happened to look into his bathroom, unaware of the drama next door. The snake's head had appeared in his plumbing.

Still unaware of dual interest, each man bent to the task of saving the snake. Mike and two friends—not wanting neighbors to know of their pet—tugged at the tail. Bob enlisted two fire department units, several policemen and a humane society worker in a try to coax the snake out.

It took an hour and a half—while the snake waited wearily—for the two factions to learn they were at odds over the ends.

The men then broke the plumbing and retrieved the snake, by now perhaps with an appetite for further such adventures.

"And I can't say I blame him," Krieger said.

The humane society took custody.

Krieger explained that the warm water in the tub helped the snake—a cold-blooded tropical animal—raise its body temperature and thus feel more interested in eating.

VICTIM of a tug-of-war in a toilet bowl, a 7-foot anaconda snake clings to a of its rescuers, Mike Krieger, right, student at the California Institute of Technology, and Albert Bruye of the Pasadena humane society. Pieces of the toilet bowl, broken to free the reptile, are on the ground. (AP Photofax)

BUSINESS MIRROR

Kennedy Sees New Economy

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—In his Yale speech President Kennedy makes it plain government wants to cooperate with business—but along the lines of a new economy he envisions.

And in their reaction to the government-business clashes this spring most businessmen have made it plain they think government-business cooperation is essential—but that the old rules should still apply.

In its own reaction the stock market also has stuck close to the old rules—prices go down when uncertainties pile up and hold the possibility of a decline in profits and business activity—no matter who's to blame, government, business, or stock traders themselves.

The Yale speech seems to put the differences between government and business into clearer focus if only because of the flat statement that the government will continue its "watchful concern for our economic health" and insist that business and labor live up to their responsibilities to the public interest, as the government interprets it.

The President says in effect his administration is anxious to allay businessmen's fears that it is against them.

But the President calls upon his business critics to give ground—to abandon what he calls their

stubborn allegiance to old myths and slogans—to move into what he sees as a new era in the nation's economy.

His chances of getting this concession by many businessmen immediately would seem pretty slim.

For one thing, they believe sincerely that economic laws don't change that easily, if at all. For another, many sincerely distrust the administration's vision of what would make the nation's economy grow at a faster pace. And still others note with some alarm a growing campaign to credit Europe's striking recovery from war damage as due to abandoning old fears of deficit financing.

The U.S. Treasury will close its fiscal books June 30 with a deficit. And if new spending proposed to pep up the economy, and tax cuts envisioned for next year, take final form the chances for deficit financing in the next fiscal year are strong.

Many fear this will fire up an another round of inflation. To the ordinary citizen this means that the cost of living goes up because the market place value of the dollar goes down.

Others, including many of the President's close advisers, insist that the deficit spending will so pep up the economy that in following years there will be Treasury surpluses, strengthening the dollar in the long run.

The idea is only part of the administration's feeling that the government can't stand aside when the growth of the U.S. economy is at stake.

ECONOMY MODEL . . . How does a fellow get ahead when they start getting mileage like that? This is what Pete Rohlfing, Homer, asks himself as he leans resignedly on a gas pump, watching passing traffic. Junior Markwardt, 1557 Gilmore Ave., in the driver's seat, takes some neighborhood children for a spin in his ancient conveyance. Passengers are Karen, Linda and

David Kujala, Janie Hogue and Karen and Linda Markwardt.
Markwardt says his one-horse shay is used but in good condition; it was owned by an elderly farmer who always kept it in his machine shed, and mileage was low, Markwardt explains. (Daily News photo)

Council Agrees To Lower Rent For Hangar

The City Council apparently is ready to give a large group of Winona businessmen a "deal" for operating a flying service at Max Conrad Field in the hope that this time the operation will succeed.

There have been three failures in less than 10 years. Spokesmen for the group say it can't happen again.

C. Paul Venables, one of 34-plus incorporators, is confident it will succeed. It's a good airport, he explained, there's public interest and it's a "strong, well-financed operation."

SAID A.D. Clarence Tribell, 3rd Ward: "I don't see how we can go wrong," with this list.

George E. Kelley, another of the incorporators, said that the previous failures occurred because of "poor management, inadequate capital and over-loaded expenses." They intend to avoid these.

The corporation, not yet incorporated, is to have a minimum capital of \$42,000, and Harold Edstrom, Chamber of Commerce president, said that pledged funds are within sight of the goal. Investments are small so that no small group will have control.

The pledges are based on working out a satisfactory arrangement with the city for renting the large hangar. Edstrom said that the investors have been sold on the idea not of making money, although the corporation intends to run in the black, but to help provide a necessary community facility.

William A. Galewski, an incorporator and assistant airport manager, described airports as modern "front doors" to cities.

HERE IS the proposal made by Galewski, which the seven incorporators accepted informally subject to working out of details:

Five-year lease with a five-year option; rent-free hangar the first year; after that \$100 a month, or 20 percent of the net profit before taxes and dividends, whichever is greater; the corporation to pay for electricity and 75 percent of heating cost (about \$1,400 last winter for the big hangar), the city to pay wind, fire etc. insurance premium, but the corporation of pay hangar keeper's premium.

The city is to continue getting the \$250 a month rent from Badger Division, Warner & Swasey, for use of half of the big hangar, and the entire small hangar, plus one cent a gallon gasoline sold (more in some cases). This gasoline revenue now is about \$50 a month, but Galewski estimates it might increase to \$100. So, the city can anticipate about \$450 a month revenue after the first year.

Insurance costs to the city will be \$100 to \$125 a month.

THE PREVIOUS two operators paid \$500 a month for the big hangar, \$50 for the small one, paid all insurance, electricity and heating and paid the cent a gallon commission.

Over the next four years the city has to pay off the debt on the big hangar: \$60,000 plus about \$4,400 in interest. 3rd Ward Ald. Howard Baumann, chairman of the finance committee, noted.

Said Mayor R. K. Ellings, one of the investors: "This is a civic deal. We shouldn't figure out how much money we're going to get. They're trying to keep it going." Mrs. Mary Masyska, alderman-at-large, wondered about the possibility of getting a percentage of the gross.

Robert Dunn, airport manager who is running a flying service on an interim basis, said that he has 17 students now with one training plane. Venables said that the capital will provide two training planes and one four-seater.

Mondovi Man Dies Under Farm Tractor

MONDOVI, Wis. (Special)—A semi-retired Mondovi farmer returned to the home farm Monday to help his son with mowing and was killed when he was pinned beneath the tractor.

The son's farm is five miles west of Mondovi on Highway 10. John Kohlman, 78, died from strangulation after his neck and head were pinned beneath the seat of an overturned tractor, according to Dr. Richard Bryant, Pepin County coroner. There were no hills or obstructions in the field he was mowing, but the tractor apparently went out of control and spun itself into a straw pile before tipping.

FRANK KOHLMAN found his father's body about 3 p.m. He called a Mondovi ambulance and, when it was apparent an ambulance was not needed, the coroner.

Mr. Kohlman was born Aug. 14, 1883, in the Town of Lima, son of Mr. and Mrs. Louis Kohlman. He had been semi-retired from farming since he moved to Mondovi 14 years ago.

He married Nellie Schlosser Sept. 7, 1909. They celebrated their 50th wedding anniversary in 1959.

Mr. Kohlman was a member of Sacred Heart Catholic Church, St. Holy Name Society and was former town clerk in Lima.

Surviving are: His wife; three sons, Edward, Mondovi; Frank, home farm; and Walter, Port Orchard, Wash.; six daughters, Mrs. Robert (Martha) Prissel Sr., Durand; Mrs. Edward (Ann) Radle, Eau Claire; Miss Mary Kohlman, at home; Mrs. Hilda Anibas, Mondovi; Mrs. Walter (Clara) Schuch, Colfax; and Mrs. Ray (Julian) Selz, Mondovi; two sisters, Mrs. Frank (Mary) Kennel, Arkansas; and Mrs. John (Millie) Brantner, Mondovi; 25 grandchildren, and 12 great-grandchildren.

A SERVICE will be Thursday at 9 a.m. at Sacred Heart Church, Mondovi, the Rev. Joseph Ferron officiating. Burial will be in Holy Rosary Cemetery, Lima. Friends may call Wednesday afternoon and evening at Kjentvet & Son Funeral Home, Mondovi. The Rosary will be said at 8:30.

Palbrerers are six nephews: Leon Prissel, Robert Prissel Jr., Philip Anibas Jr., Dale Anibas, Larry Schuch and Ray Radle.

Report at Meeting Great River Signs On Much of Road Now

Great River Road signs now mark 62 percent of the route of the Mississippi River Parkway from pines to palms, Mrs. Edna Bowen, the parkway's promotion director, told 40 interested persons at a parkway meeting at Hotel Winona Monday evening.

It was the first meeting of 12 Mrs. Bowen will hold this week in communities along the parkway north to the Canadian border. This evening's meeting is in St. James Hotel, Red Wing. Mrs. Bowen is accompanied on the "trip through Minnesota" by Harold Olson, Minnesota Highway Department, and J. W. Clark, Minnesota Department of Resources and Development.

GREAT RIVER ROAD markers are now up along the highway in all the states except Louisiana and Tennessee, on each side of the river, Mrs. Bowen said. The parkway in most cases is the highway nearest the river.

The plan of designating a parkway route on each side of the "Big River" eliminates the competition between states, it was noted. Existing highways are used, although some states are now constructing new highways adjoining the river. Highway debris are being built on top of flood control dikes in the deep south.

Lack of federal funds, the speakers said, is the reason that no scenic easements to protect the roadsides are being secured, although Minnesota is protecting

Filings Open On Wednesday Cafeteria Change With Short 'Noon' Will Be Studied

Action on a proposal to shorten the noon lunch hour at four public schools from 55 minutes to a half hour was postponed by the Board of Education Monday night to allow time for study of cafeteria improvements that would be necessary to accommodate contemplated increases in noon lunch servings.

There appeared to be general agreement among board members that the new noon hour schedule be put into effect next fall—resulting in an earlier dismissal time and allowing for possible scheduling of a seventh period class—at Senior High School, Central Junior High School and Washington-Kosciusko and Jefferson schools.

SUPT. of Schools A. L. Nelson, however, pointed out that "considerable increase in participation in the noon lunch program" could be expected with the shorter noon hour and requirement that students remain on school premises during the lunch period.

He said that cooking facilities at Jefferson and Washington-Kosciusko schools are not adequate to accommodate the increase and some additions might have to be made at the Senior High cafeteria.

Board President Lawrence Santelman questioned whether economies might be realized if food preparation were to be centralized at one school—most likely the Senior High School—and food transported to the outlying schools for serving.

After discussing the situation directors decided to defer action on the schedule change and on cafeteria improvements until the administration can obtain cost data and present recommendations on the best serving procedure.

The board will meet in special session later this month to act on the recommendations.

NELSON TOLD the board that he had received a suggestion that a short course in Oriental history be incorporated in the public schools history curriculum.

Salary of an instructor was a factor and directors decided that it wasn't financially expedient to undertake the program next year.

A REQUEST was received from Jehovah's Witnesses for use of the Senior High School auditorium and gymnasium and high school cafeteria Oct. 5-7 for a circuit assembly.

Action was deferred pending a study of rental charges that would be required.

Unbelievable Forecast Made By Weatherman

This is almost too good to be true.

But throwing all caution to the wind and without any "ifs," "ands" or "buts," the weatherman issued the following prediction for tonight and Wednesday:

"Mostly fair tonight and Wednesday, little temperature change tonight. Low tonight 46-52, high Wednesday 70-75."

Temperatures Thursday are expected to be a little below normal but no rain is seen.

The fair weather came as a boon to area farmers anxious to get into their fields and battle the weeds which have flourished during the wet spell. Others were endeavoring to cut and gather a luxurious hay crop.

THE TEMPERATURE rose to 77 Monday afternoon and dropped to a chilly 47 this morning. However, under a clear sky, the thermometer shot up to 66 at noon today.

A year ago today Winona had a high temperature of 85 and a low of 63 with .17 of an inch of precipitation. Alltime high for June 12 was 95 in 1920 and the low 41 in 1874. Mean for the past 24 hours was 62. Normal for this day is 68.

Temperatures over the North-west remained fairly steady today with highs in the 70s and lows in the 40s. Duluth's 31 was the minimum for Minnesota. Rochester posted a high of 75 and a low of 47 for the 24 hours. At La Crosse figures were 74 and 49.

Boat Thieves Keeping Busy

A number of thefts have been reported to police and the sheriff's department.

Ronald Palmer, 768 E. 2nd St., reported to police that his 12-foot green plywood boat had been stolen sometime Sunday evening. Palmer estimated the value of the boat at \$25. Its license number is MN 4737 BF.

Three more thefts were reported by the sheriff's department.

John Zywicki Jr., 733 E. Broadway, reported that a paddlewheel boat, valued at \$150, was taken recently from his summer cottage two miles south of Lamolite. The boat was described as a small one (three or four passenger) with red pontoons and yellow paddles.

Ronald Ramin, 362 E. 5th St., reported that a prop, valued at \$35, and a ski towrope and bar were taken from his boat that was tied up at Mertes boat dock in Wisconsin.

Judge Dismisses Charge Against Taxicab Driver

The charge of driving through a red light against Owen J. Schmidt, 22, 1173 W. 4th St., was dismissed today by Municipal Judge S. D. J. Brusk.

Arrested by police at 3rd and Main streets Wednesday, he had pleaded not guilty when he was arraigned in municipal court Thursday. He had posted \$10 bail.

Roger P. Brosnahan, assistant city attorney, asked for the dismissal on the grounds that Schmidt had not intentionally committed his offense. He said that Schmidt, a cab driver, had experienced trouble with his passenger just before entering the intersection at 3rd and Main. Schmidt had gone into the intersection where his motor had killed. Schmidt then went on since he believed he then would be less prone to become involved in a traffic snarl.

Brosnahan said the patrolmen who arrested Schmidt only had seen Schmidt go through the intersection. They were not aware that he had had difficulty with his passenger.

Judge Brusk ordered Schmidt released and his bond refunded.

Steamboat Queen Entries Invited; Deadline June 26

The call is out today for entrants and sponsors for the Steamboat Days queen contest.

Last day for entries in the contest will be Tuesday, June 26, according to Junior Chamber of Commerce officials, because of photo requirements in connection with the show.

This year's winner will be the Winona entry in the 1963 Miss Minnesota contest, with the attendant possibility of eventually representing the state in the fabulous Miss America pageant at Atlantic City, N. J. She also will represent the city in the Minneapolis Aquatennial Queen of the Lakes show.

Girls entered should be from 17 to 23 years old, unmarried and residents of the city. Judging will be on the basis of talent as well as attractiveness, says the contest coordinator, Daniel Schmidt, 1359 Glen View Rd., and girls are required to present a musical selection, dramatic reading, skit or entertainment feature of some type.

All entries are sponsored by city firms, Schmidt says; prospective sponsors without contestants—and girls looking for sponsoring organizations—should contact him for details.

Entries will be limited to 14 this year, Schmidt said, because of stage limitations. The show will be staged at Levee Park Friday evening, July 6.

WSC Dormitory Remodeling Set; More Beds Needed

Dr. Nels Minne, Winona State College president, will open bids there at 2 p.m. June 21 to expand the bed capacity at Richards Hall, the men's dormitory.

The project will also involve construction and maintenance at Richards Hall and Morey Hall, women's dormitory.

Bids will be sought for general, electrical and mechanical work. Work is to be completed by Sept. 1 in time for the new school year.

Richards Hall's normal capacity is 151 beds. This dormitory has been overcrowded because of the college's rising enrollment. Eighteen beds will be added. This will be done by converting each lounge on the three upper floors into a combined sleeping and study area for six men. Remaining lounges are in the basement. Funds for the project will come from the State College Board's dormitory fund.

Other parts of the project involve repiping the hot water system in Richards Hall, installation of heat exchangers in Morey and Richards halls to connect with the new steam supply from the central heating plant, and installation of water treatment equipment to reduce pipe corrosion.

Flad-Smith & Associates, Winona, are architects.

Heimick & Lutz, Minneapolis, architects, will confer with contractors at the college Thursday morning concerning forthcoming work on the heating plant and tunnel which carries service lines. Work will start soon and be finished by September.

The project, contracts for which total \$33,981, involves extension of the heating plant tunnel and service lines and installation of another boiler in the present two-boiler heating plant. Contractors follow: P. Earl Schwab, Winona, general; Winona Plumbing Co., mechanical, and John P. Mader, La Crosse, electrical.

Shell Won't Build Station on Sarnia

There won't be a Shell Oil Co. station at the intersection of East Sarnia Street and Mankato Avenue, Council President Harold Briesath told aldermen Monday night at City Hall. It may be "stuck" with the site, however.

Shell, through a locally organized building firm, had been low bidder nearly a year ago to buy a piece of land from the city at that location, with the understanding that it would build a \$31,000 station before the end of 1961.

SHORTLY AFTER the Council had disregarded a higher offer for the land on Aug. 7, the builder took out a building permit—for \$17,000—for the construction, but after that Shell twice has explained why it hasn't started building.

First there was the need to acquire more land because of state Highway Department requirements involving access from Sarnia Street (Highway 43), then more recently there was the difficulty of clearing the site.

Last night President Briesath reported that the lowest bids for construction are about \$6,000 over the \$31,000 available and consequently Shell has decided not to build.

Methodists at State Conference

The Rev. E. Clayton Burgess, senior minister, the Rev. Richard Lewis, assistant minister, and lay members Dr. Max De Bolt and Ted Biesanz are representing Central Methodist Church at the Minnesota Annual Conference of the Methodist Church.

Mrs. Burgess is also attending the conference.

Over 600 delegates are attending sessions at Hamline University, St. Paul. The climax of the business session will come Thursday afternoon when action is taken on a proposed 1962-63 budget that may top the \$1,300,000 mark.

Two major proposals before the conference will be reflected in the budget decision.

1.—An \$80,000 plan for building new churches. 2.—A 10-year program to make \$500,000 in improvements on Methodist summer camp and college campus facilities.

On Thursday, Dr. Burgess, president of the board of missions, will present the annual report of the board.

Friday's closing sessions will be attended by more than 400 college and high school students visiting the first Conference Youth Day.

After an evening banquet at which the Rev. Jameson Jones will speak on "Living Upside Down," the youth will join the concluding service of ordination for new ministers.

David P. Burgess, son of Dr. and Mrs. Burgess, expects to be ordained as a deacon in this service. He has just returned to Winona from his first year's theological studies at Boston University where he was the top student of his class.

The Minnesota Annual Conference includes over 123,000 adult members in 398 local churches which are served by 317 ministers. Conference institutions include Wesley Foundations on nine state college campuses, four summer campgrounds, Methodist hospitals in St. Louis Park, Rochester and Minneapolis, the Goodwill Industries, the Paul Watkins Memorial and Walker homes for the aged, and Hamline University.

Presiding over the conference is resident Bishop T. Otto Nall.

Ex-Winonan Awaiting Texas Electric Chair

Special to the Daily News

RUSK, Tex.—Former Winonan John Edwin Myers, 33, continued his long wait today in Cherokee County jail for word from the Texas Court of Criminal Appeals at Austin concerning his appeal from a death sentence for murder.

Myers, confessed killer of four, was found guilty March 16 of shooting to death Arthur Lee DeKraai, 33, Ottumwa, Iowa, Sept. 1, 1961, in Howard County, Texas. Myers' sweetheart in crime, Donna Marie Stone, 14, Chicago schoolgirl, has been returned to Illinois to face a murder charge.

MYERS WAS found guilty of murder by a 145th District Court jury after a four-day trial and sentenced to death in the electric chair. His court-appointed lawyers, Orvan Jones and Richard Stone, both of Jacksonville, Tex., gave notice of appeal. A ruling from the Court of Criminal Appeals is awaited as District Judge James H. Moore, who presided at the trial, denied a motion for a new trial.

In addition to DeKraai, Myers has admitted killing George Ballard, 47, and his daughter, Carole, 11, Belleville, Ill., and Miss Margaret M. Wernicker, 39, St. Louis, Mo. During the killing spree, Myers was accompanied by Donna Marie. Motive of the killings was robbery. Only \$16 was obtained in the four killings, including 17 cents from DeKraai.

TESTIMONY during Myers' trial indicated he and Donna Marie arrived broke in Dallas, decided to pick up a hitchhiker and kill the hitchhiker for his money. DeKraai picked up the pair outside Ft. Worth and Sweetwater where Myers and Donna Marie completed their plans for murdering DeKraai while DeKraai remained in the car.

According to trial evidence, Donna Marie took the wheel as DeKraai slept on the front seat. Myers shot DeKraai in the head. DeKraai lurched forward and grabbed Donna Marie's arm. Myers got the car back under control, driving with one hand and holding DeKraai with the other. Donna Marie again took the wheel and leaned forward while Myers fired three bullets into DeKraai's body.

THEN DONNA Marie and Myers drove off the busy highway and onto a small country road where they dumped the mortally wounded DeKraai, who was still alive. The pair ripped the blood-

stained seat covers from the car and emptied DeKraai's pockets of 17 cents.

The Highway Patrol arrested the couple the same night at Midland, Tex.

A psychiatrist and psychologist from Rusk State Hospital, only defense witnesses, testified Myers was an emotionally retarded schizophrenic who did not know right from wrong.

DURING THE trial Myers sat stone-faced without moving except to smoke an occasional cigar. The case, originally set for trial in Howard County, was moved to Cherokee County on a change of venue after lawyers failed to obtain a jury of 12 in Cherokee County, lawyers had to interview 250 prospective jurors.

Myers, who formerly lived in St. Charles and Winona, was convicted of second degree grand larceny in District Court at Winona March 3, 1958. His bail that time was small too—only \$5 in a stolen purse. He was sentenced to 60 days in jail but it was suspended and he was put on probation six months.

He and his wife and their five children later moved to Staples, Minn. That marriage ended in divorce. He married a Winona woman. They have separated.

It Happened Last Night Kennedy Wants Prize for Frost

By EARL WILSON

NEW YORK — The White House is pushing Robert Frost for the Nobel Prize for Literature. Insiders hear JFK's even written the Stockholm committee urging his selection. (His competition includes Graham Greene.) They haven't asked me, but I'm for Frost—he's a good beer-guzzling Joe.

FRANK SINATRA's turning Irish. But just for "Come Blow Your Horn," which Hollywood has now switched from a Jewish family story to Irish. Helen Hayes' son James MacArthur is up for the young brother role.

YALE AND HARVARD, attention! Fellow came up to Joe E. Lewis in Toots Shor's and said, "Pardon me, Joe. We're up here for our Princeton reunion." Joe E. busy drinking, said "Ignorance is no excuse!"

JACKIE KENNEDY was a heluva hit on 52nd St. the other night. Leaving "A Man for All Seasons," she had a sidekick gallery of a couple of thousand who'd heard she was there. Three mounted cops chased drunks and even a U.S. mail truck out of the way, and a Secret Service man cleared a path for her to her limousine. An older woman in the crowd,

seeing Jackie escorted out by producer-actor Chandler Cowles, gasped to her husband, "Do you know—she's CUTE!"

Lovely Nancy Olson, ex-wife of Alan Jay Lerner, must like the name Alan and the initials AL—Friends say she'll marry Alan Livingston, NBC executive and ex-husband of Betty Hutton, come autumn.

In defense of Marilyn Monroe: She's had a divorce, a breakdown and a gall bladder operation since her last picture—and she may be due for the hospital again.

PEGGY CASS — Continuing her feud with Rudy Vallee — says, "Since I was a very little girl, I've had two men whom I was crazy about: Rudy Vallee and Bernard Baruch."

Richard Burton's probable next leading lady: Susan Strasberg in "Fear is the Chain." Dagmar's in deep mourning for her beloved white poodle "Shakespeare." . . . Louis Prima came through with a white mink cape for his vocalist Gia Maione. . . . Ava Gardner's ill . . . My B.W. and son Oil screamed with laughter watching John Wayne and Red Buttons in "Hart" (it means "Danger") and predicted fantastic success for it plus many awards.

Nick Lucas—yep, Nick Lucas, the bar-picking troubadour of the Ziegfeld Follies—was among those applauding beautiful Arlene Dahl when she opened at the Lat-in Quarter. (Gee, you should see her in a leopard!) Nick, after posing backstage with Arlene, asked a photo for some prints. The photo, a youngster who didn't recall Nick's fame, said, "Sure—as many as you want at the regular studio price."

Singer Enzo Stuarti is planning a TV series, "We're Not Strangers," in Italy. . . . BBardo's estranged husband Jacques Charrier will star with Josephine Baker in a theater festival in France this summer.

EARL'S PEARLS: People keep getting killed by guns that aren't loaded and drivers who are. TODAY'S BEST LAUGH: "My wife and I happen to like the same thing," says Bob Goddard. "Only I like to save it and she likes to spend it."

WIS I'D SAID THAT: It's ironic that we have safety belts for motorists—when it's the pedestrians who need protection.

In Old Testament days it was a miracle when an ass spoke—but how times have changed. That's earl, brother.

River Bass Catch

When a brother-in-law comes for a visit, take him fishing. Goodwin Scattum, Minnesota City, said that's his idea of entertaining and at the same time get in a little fishing for himself.

Last Saturday morning, the brother-in-law, Dennis Grothe, 2910 34th Ave., Minneapolis, without cap in picture, was taken bass fishing near Weaver. The result of the two-hour expedition was the string of largemouths they are displaying in the picture.

Their limits ran from two and a half to four pounds, and were caught on jigger bugs in shallow water, two to five feet deep, in about two hours of fishing. The area was next to some heavy weed cover. Both fishermen used casting outfits.

ski, 4135 Sixth Street, Goodview.

Biggest walleye for the two-week period ending Saturday weighed nine pounds 10 ounces and was entered by Lyle Yeoman, St. Charles. This fish was caught by his son, Roger, 18, while fishing in the Weaver area.

Willowcat predominated as the popular bait over the weekend. Several fishermen reported catching five and six pounders on cats over the weekend. Another popular and productive lure, used by many spin-fishermen, was a yellow dolly. The weight should not be heavy enough to lodge on the bottom when slowly retrieved.

New Minnesota Park

On June 17, the official dedication of one of Minnesota's newest state parks will take place on the site of what was once the center of Sioux Indian civilization in the western United States. Located just south of the village of Vineland on the west side of Mille Lacs Lake, new Mille Lacs Kathio State Park is also one of the largest state parks comprising 6,010 acres of forest, marshes, lakes and streams.

In the park area stood what was probably the largest of the three great Sioux villages on Mille Lacs Lake at the time when Du Luth, believed to be the first white man in the state, planted the flag of the King of France on July 2, 1679. A year later Vather Hennepin visited the area and was subsequently held prisoner until rescued later in the year by the intrepid Du Luth.

Archaeologists and historians believe that all of the seven tribes of Sioux lived around Mille Lacs in sizeable numbers and point to the more than one thousand burial mounds discovered about the lake.

The Little Crow dynasty ruled the Sioux from this location for centuries and were the ancestors of such great leaders as Crazy Horse and Sitting Bull. Little Crow, who led the Sioux outbreak in Minnesota in 1862, was one of the last of the ruling dynasty.

More well known, perhaps, is the fact that the park area is the scene of the Battle of Kathio about 1750, in which the Chippewa defeated the Sioux in a decisive engagement and forced the Sioux out of the forest and onto the Great Plains of the west.

The Chippewa success at this battle is generally attributed to the achievement of complete surprise and to the

fact that they possessed muskets from trading with the French. It is said that the Chippewa also climbed atop the Sioux lodges and dropped packets of gun powder down through the smoke holes which exploded in the lodge fires killing those inside. This was the climactic battle in a long struggle for control of the prized northern forests with their rich supply of game and other resources.

Park development plans call for the establishment of a campground, group camping areas and boat launching sites on Ogechie Lake. Further in the future are such possibilities as a riding stable and swimming pool. At the present time, development work has progressed to the construction of a contact station at the park entrance and an access road into a picnic ground on Ogechie Lake. There are 68 land-grant colleges and universities in the United States and Puerto Rico.

June is Dairy Month

Butter Brings Out Best in Foods

If "flavor is the voice of food," as the gourmet's saying goes, then butter is the key which gives the voice the full, rich quality which distinguishes the concert soloist from the amateur.

No other food is more important to the cook who takes pride in the quality and flavor of her creations. And no other spread can match butter's ability to bring out the best in foods, especially in hot vegetables and baked foods.

THE HISTORY of butter extends well back into the history of mankind. Yet it was not until the mid-1800's that butter, prepared and packaged as we now recognize it, became a familiar sight in the market place. Prior to that time, butter had been a "home made" product.

In 1848 the first butter factory was established in the United States. Dairy farmers from the countryside surrounding Gosben, New York, were invited to bring their milk to this receiving station and to sell it for conversion to butter, rather than for use as a beverage. From that small beginning, the butter industry spread across the nation to become a vital segment of the dairying business.

Butter is churned from cream, and one pound of butter represents roughly the amount of cream contained in 10½ to 11 quarts of milk. The only other ingredient in butter is a slight amount of salt, sparingly blended to bring out the rich, full flavor of the cream.

BEFORE BUTTER is sold, it is often graded by government inspectors. These trained specialists "score" the butter on the basis of its taste, smell, body and texture.

ture. Their judgment ranks the product as U. S. Grade AA (93 score), Grade A (92 score), and Grade B (90 score).

However it is used, as a recipe ingredient or as a simple spread for bread, the quality and flavor of real butter win respect.

Minnesota is the leading butter producing state in the nation with a total production in 1961 of 344,440,000 (M) pounds. Minnesota buttermakers' also are recognized as the best craftsmen in the world in their field.

Lake Beach Not Open Yet

The word to local youngsters with the urge to submerge is "Don't go near the water—yet." Lake Winona Beach will open officially Saturday at 9 a.m., according to the park-recreation office, but until then swimming is not legally permitted.

Ropes, markers and other equipment are being put in place by crews this week, says Vernon Smelser, program director, and all will be ready by Saturday. But meanwhile, children are warned not to swim because there is no supervision of the area.

Some infractions of the swimming prohibition have been noted, Smelser said, and these have been strongly discouraged. Parents are requested by the park-recreation department to help see that children wait until after opening day to enjoy the water in regulated safety.

Hours at the beach will be daily from 9 a.m. to dusk, Smelser said.

7 Vacancies on Public School Teaching Staff

Seven vacancies remain to be filled on the Winona public schools faculty for the 1962-63 school year, Superintendent of Schools A. L. Nelson reported to the Board of Education Monday night.

Nelson said that 20 new teachers have been hired thus far this spring, five of whose contracts were approved by the board last night.

Two resignations, meanwhile, were submitted to the board Monday. Ronald White asked to be released from his contract as social studies instructor at Senior High School, where he has also coached wrestling and assisted in football, and Miss Patricia Rupp resigned from the high school business education department.

White will join the faculty of the Rochester public schools and Miss White plans to be married this summer.

Contracts approved Monday had been issued to:

- Gary Herum, who'll teach mathematics at Senior High School. He is a graduate of Eau Claire State College, has been teaching the past two years at Baldwin, Wis., and this summer will attend a National Defense Education Act mathematics institute. His salary will be \$5,020.
- Judith Heilmann, Rochester, a graduate of Mankato State College who'll teach home economics at Washington-Kosciusko School. She'll teach for 40 weeks at a salary of \$4,725.
- Mrs. Marilyn Vesperman, Cochrane, Wis., hired as an instructor in business education. She is a graduate of Whitewater (Wis.) State College, has had four years of teaching experience and the past year taught at Clayton, Wis. Her salary was set at \$5,440.
- Karen Borchardt, a 1962 graduate of Lawrence College, Appleton, Wis., employed for the Senior High School faculty and a resident of Watwatosa, Wis. Her salary will be \$4,600.
- Corinne Johnson, Hoffman, Minn., a teacher at Sioux Falls, S.D., the last year, hired to teach kindergarten at Jefferson School at a salary of \$5,860.

TAKING IT EASY... Fred Tarras, who's been in charge of maintenance of the Senior High School auditorium-gymnasium for 16 years, catches up on garden work at his home at 559 W. Broadway at the start of his retirement from the public school system. Tarras actually is retiring July 1 but began his annual vacation this week that will carry him through the remainder of the month. (Daily News photo)

School Board Resolution Cites Retiring Employee

A resolution commending Fred W. Tarras, retiring at the end of this month as custodian at the Senior High School auditorium-gymnasium, for his 19 years' service in the Winona public school system was adopted Monday night by the Board of Education.

Tarras, who joined the system in 1943 and worked for three years as a relief custodian in all schools before assignment to the auditorium, is retiring after reaching the mandatory retirement age of 65.

He worked in the press room at the La Crosse Tribune before accepting the position in the schools here. He's a member of the Veterans of Foreign Wars and belonged to the Winona Rod & Gun Club. Mr. and Mrs. Tarras, who live at 559 W. Broadway, have four children, one of them at home.

Directors Monday night also approved a change order in the Senior High School remodeling project.

A door and window will be cut in the wall that now separates the vocational department office from the audio-visual department office. Estimated cost of the work \$380.

Discussion of prizes to be awarded at the Legion boat show on Peterson's Lake Aug. 19 revealed that the value of the awards totals \$750, including a 10 horsepower motor, camping equipment, life preservers, with the list still incomplete.

A committee composed of Wilbur Koelmel, chairman, Eugene Street, Buckman and William Kiley was appointed by Commander Wiemann to consider purchase of additional band uniforms for the school bands.

District child welfare chairman Reider announced that the Wabasha post will receive the national child welfare citation, presented annually to one post in each district. With 40 posts reporting at the district convention, Wabasha Post's report was judged the best.

Wabasha Legion Installs Officers

WABASHA, Minn. (Special) — The new 1st District commander, Charles Gavin, La Crescent, installed officers of Post 50, American Legion, here Thursday evening.

Kenneth Wiemann is the new commander, succeeding Floyd Riester. Riester was presented with a past post commanders' lapel button by Gavin.

Others installed: Harold Buckman, first vice commander; Robert Cooper, second vice commander; Nick Kenitz, adjutant; Walter Balow, finance officer; Leo Dick, chaplain; Frank Schuth, historian, and Donald Costello, sergeant-at-arms.

District, county and local officers, in addition to Gavin, who participated in the installation and introduced by post Commander Riester were: Stewart Clark, La Crescent, district adjutant; Irl Gusa, Elgin, district vice commander; Ed Herman, Lake City, district chaplain; Donovan Timm, Plainview; Wabasha County commander; Lyle LaCroix, Plainview, county adjutant; Claude Bernard, Elgin, past county adjutant; Robert Boehm, La Crescent, post commander; and Winston Reider, La Crescent, district child welfare chairman.

Juvenile Delinquency Stable in Winona Co.

Winona County's juvenile delinquency situation was relatively stable in 1961 compared with 1960, although there was a sharp decrease in vandalism and increases in larceny and breaking and entering.

This was reported by Juvenile Judge E. D. Libera and Probation Officer James F. Heinlen.

The court handled 223 cases in 1961 compared with 221 in 1960. Of the totals, 172 were traffic cases in 1961 compared with 169 traffic cases in 1960. Actual delinquency cases were the same in both years—52.

In their report, the officials said:

"As far as cases categorized by offenses is concerned, they are as follows: Liquor, 6; break and enter, 6; larceny, 26; vandalism, 5; taking a car without the owner's permission, 2; assault, 1; obstructing justice, 1; morals, 2; disorderly conduct, 1, and indecent assault, 1. "The only notable increases were break and enter from none for 1960 to 6 for 1961 and larceny up to 26 from 17, comprising exactly half the cases. On the other hand, vandalism petitions decreased sharply from 16 in 1960 to 5 for 1961.

"Commitments to the Youth Conservation Commission at Red Wing or Sauk Centre more than doubled from 2 in 1960 to 5 in 1961. However, three of the commitments were nonresidents or former nonresidents of the county. It is anticipated that there will be a slight increase in commitments in 1962.

The court collected \$402.82 in restitution which was returned to victims of juvenile offenses. This

don't include money returned directly to victims by offenders' parents.

In addition to 223 formal cases in 1961, the court handled 138 informal cases involving persons voluntarily seeking help. In 78 percent of the court's cases, no commitment was deemed necessary, with the offender being placed under supervision.

Lake City Pastor Taken to Hospital

LAKE CITY, Minn. (Special)—The Rev. T. H. Albrecht, senior pastor of St. John's Lutheran Church, became seriously ill Saturday evening and was admitted to Rochester Methodist Hospital, Rochester.

Pastor Albrecht underwent surgery earlier this spring in Rochester.

ter. Despite his advanced age, he recovered soon and took his place in the pulpit every Sunday, as he was planning to do last Sunday.

Leroy Levenson, principal and eighth grade teacher in St. John's Lutheran School, substituted for pastor Albrecht with a reading service. The Rev. Ralph A. Goede, also pastor at St. John's, Lake

City, also is interim pastor for Trinity Lutheran Church, Lincoln, where they had the final examination for this year's confirmation class and he had to conduct the service there.

which are the Blue Shield gallstones?

... the ones paid for before they happened!

Gallstones aren't funny! But they are facts, and unpleasant ones at that.

Because illness happens, Blue Shield has worked out a pre-paid plan for financing and budgeting medical-surgical care.

As Minnesota's largest pre-paid medical-surgical plan working directly with the medical profession, Blue Shield can predict the cost of health care confidently and accurately.

This makes it possible, if you are eligible for Blue Shield service benefits, to pay the cost of an operation in full. We don't want you to get gallstones, but we hope you have Blue Shield's pre-paid protection, if you do.

Thoughts at Random— From Editor's Notebook

WE'RE SOON GOING to have a section of Interstate Highway in this area and it might be well to bear in mind now a new regulation announced by the Commissioner of Highways—pedestrians, bicycles, horses, other non-motorized traffic and slow-moving farm equipment will be barred. Service roadways which will parallel the freeways will be provided for this traffic.

Interstate 90 which will enter Minnesota over a new multimillion dollar Mississippi River bridge below the Dresbach dam will follow what is now U. S. Highway 61 from that point to a mile north of Dakota. There it will swing up the bluffs and follow a westerly route to Wadena, Wadena, curve south to Troy and north of Chaffield, north of Stewartville and west to Austin, Albert Lea, the South Dakota line and the West Coast.

RECEIVED A letter from a newcomer the other day and she got a bit critical of the housing situation in Winona. Says our new resident:

"I am new in your city. I think the natural beauty of the city is something to behold and the people I have met are most gracious and industrious. But please tell me why must housing be so outrageously high?"

"We have looked at new houses in the \$15,000 to \$20,000 bracket that would be classed as pre-fab or low cost housing in the college city we moved from. There is no quality for the out-of-line price. The real estate people we talked with agree this is their most common complaint.

"There is a shortage of good-sized decent apartments as well as houses to rent. It is a miracle to find a modern house vacant and then the rent would be \$125 up. Many will not allow children or pets.

"The downtown business district is shoddy, lighting out-dated and many streets not up to standard, yet taxes are not low. I know your city wants to grow and prosper but the housing situation has not much to offer. It's a problem which you should face—and attempt to remedy."

WE COMMENTED here not long ago how the city government must cooperate taxwise if it expects property owners to improve their buildings. We referred to a downtown store development—a fine improvement—but pointed out that before the remodeling was completed, taxes were boosted 50 percent.

The Austin Daily Herald republished the item and then went on to say that in some countries an altogether different approach is used. A high tax is placed on the land, and the buildings are ignored. Thus, the owner is encouraged to invest in improvements to increase the rental, inasmuch as the tax remains the same. The theory is that improvements are an asset to a community and should be encouraged, and should not be discouraged by taxes. It's an interesting idea.

A MOVE IS ON foot at Rochester to expand the Mayo Civic Auditorium arena where hockey games are played and other events staged throughout the year. Cost of the project has been estimated at \$600,000. The Rochester Post-Bulletin, asked if it were in favor of the expansion, answered, "Yes . . . But . . ." Its point was that it must first be proved that the heavy cost of such a project could be justified by increased and better usage of the building.

Rochester, incidentally, has recently acquired from the state a beautiful 175-acre tract for just \$17,500 east of the city on Highway 14. Its Park Board is planning a second 18-hole public golf course, camp site, picnic ground, tennis courts, ball fields, archery facilities, etc. More than 40,000 rounds of golf were played at the Soldiers Field public course last year and the figure would have been nearer 60,000 if the course could physically handle that many.

SEAT BELTS in automobiles have definitely proved their worth—and we hope the next session of the Legislature follows suit with Wisconsin and passes a law making them compulsory. You don't have to have a law, however, because you can buy them anytime at garages and many service stations.

There isn't an airplane flying without seat belts. Yet paradoxically the average motorist, minus seat belt, blithely pilots his car in a traffic environment some five-times statistically more dangerous per mile than in the wild blue yonder. Only three out of every 100 autos on the road are seat belt equipped. And only one motorist out of those three regularly uses them.

We spend much time packaging fragile, inanimate objects for transportation elsewhere—but a human life, the most valuable of all objects, is wrapped in only a thin outer shell of clothing.

Russian historians must now do a re-write job to downgrade Stalin. In the worker's paradise both past and future are uncertain.

The preliminary lineup of contending forces in the coming congressional battle over free trade suggests that there's going to be a free-for-all.

Washington Calling

Big Organization Dominates World

By MARQUIS CHILDS

WASHINGTON—Whether man is master of the advanced technology he has brought into being or whether it has come to rule his life is a deeply disturbing question for which at the moment there is no answer.

To provide the amazingly complex devices of modern war this country is spending more than \$50 billion a year. But in the jet-nuclear age it is not only in war and the prelude of cold war that technology threatens to reduce the individual to a unit, a number, if it does not exterminate him altogether.

Recent disasters to the jet aircraft that demolish space and time throw into sharp relief the relationship between the individual and big organization—the kind of organization in government and in industry that increasingly dominates our world. Introduction of the jets has disrupted the air transport industry and brought into sudden sharp focus challenging decisions government must make.

The cost of the big jet passenger planes has brought large entries in red ink for many of the big airlines. One consequence is the pressure for mergers. Hearings are now being held into the proposal to merge Eastern and American. The combined line would be far and away the largest domestic carrier.

THIS WOULD BE dwarfed, however, by another merger still in the talk stage. Pan American World Airways is proposing to absorb Trans-World Airlines. If that happens, with eventual government sanction, it would be a long step toward making Pan Am the "chosen instrument" for America's overseas operation. Pan Am, under the merger, would have the Atlantic exclusively, but Northwest Airlines would still be a rival in the Pacific and Braniff and Panagra would be the competition in Latin America.

Before it can happen a great many searching questions will be asked. Senator Mike Monroney, chairman of an aviation subcommittee of the Senate with a broad knowledge of the air transport industry, is beginning to ask some of these questions. Is competition important in maintaining standards? If there is to be an overseas monopoly, should this be a private company controlled by a few individuals or should it be a government monopoly?

WHEN IT COMES to individuals, one name stands out. Juan Trippe has been president of Pan Am since it was founded 35 years ago. From that start—carrying the mail from Key West to Havana—he has done extraordinary pioneering in almost every corner of the globe.

A great many adjectives, both flattering and unflattering, have been applied to Trippe as he has pushed Pan Am to a point at which its operating revenue last year was nearly a half-billion dollars. He has been called ruthless, dominating, overweening ambitious, while at the same time due recognition has been paid to his achievements.

Ambition to one side, certain external forces are working for the merger. Trans-World Airlines finances are badly snarled. With the enigmatic Howard Hughes owning 78 percent of the stock trustees are trying to direct the line amidst a welter of lawsuits. Last year TWA lost \$14,745,000, and the loss for the first quarter this year after tax credits was \$13,400,000.

TRIPPE IS pointing out that a European Common Market airline is likely to come into being. Although the Rome Treaty exempts air and sea transport for two years, Air France, Alitalia, Sabena (Belgian), and Lufthansa (German) lines have been discussing a confederation for operating economies if not a merger under the name Europe Air.

Dogs at White House Move Over for Proxmire

By DREW PEARSON

WASHINGTON — Charlie and Pushinka, the White House pooches, may have to move over in their doghouse to make room for Sen. Bill Proxmire of Wisconsin, the Senate push-pull king. Proxmire is a democrat. But no Republican senator is more unpopular with the President.

He first brought the wrath of the White House down upon his head by working with Mississippi's segregationist Sen. Jim Eastland inside the Senate Agriculture Committee to scuttle the heart of the Kennedy farm program.

The President, though piqued, overlooked Proxmire's antics and dutifully invited him to fly in the presidential party to a big Democratic dinner in Wisconsin. Whether you're a Republican or a Democrat, a presidential invitation is regarded as a command. You don't refuse such an invitation. But Proxmire happily snubbed the offer to ride with the President.

The last straw was Proxmire's part in the Senate vote to ban economic aid to Communist countries, which may go down as the year's worst diplomatic disaster. It had exactly the opposite effect that its backers presumably intended, by playing right into the Kremlin's hands.

THE HASTY Senate ban on Communist aid came precisely at the time Premier Khrushchev had called satellite leaders to Moscow for an economic conference. Its purpose was to tighten the Kremlin's hold on the satellites by weakening their economic ties with the West.

The Senate obliged Khrushchev by cutting those ties together and pushing the satellites right into Khrushchev's open arms — although it later partly corrected its mistake.

It was the handsome, erratic senator from Wisconsin who started the Senate on its disastrous course. He offered an amendment to suspend economic aid to Yugoslavia for one year. This was obviously a grandstand play, since Yugoslavia isn't scheduled to get much economic aid during the next year anyway.

But it was a slap at Yugoslavia's Marshal Tito and a boon to Khrushchev, who has had his troubles with Tito and is now courting him. Mr. X, has invited Tito to come to Moscow this fall. So Proxmire obligingly provided a shotgun for a Khrushchev-Tito marriage.

THE SENATOR from Wisconsin was careful not to include Poland in his resolution, although Poland is closer to the Kremlin than Yugoslavia and is scheduled to get considerably more economic aid. He knew that more Poles live in Milwaukee than in most Polish cities, and that they would like to see the old country weaned away from Moscow.

There are, however, almost no Yugoslavs in Wisconsin. But Ohio's bushy-haired Sen. Frank Lausche, another Democrat maverick, is of Yugoslav parentage. Apparently he didn't want the Yugoslavs singled out for special discrimination. He jumped into the Senate debate with a demand that all Communist countries be shut off from economic aid.

"This would seriously cripple our effectiveness in dealing with Iron Countries," Kennedy told the senators soberly. "It plays right into the hands of Khrushchev," he added.

Kennedy also telephoned Democratic Leader Mike Mansfield of Montana and Republican Leader Everett Dirksen of Illinois to repeat the same appeal.

With their support, the Senate sheepishly reversed its earlier action at least to the extent of the Humphrey formula.

Note — Texas' little but loud Sen. Jack Tower, an uncompromising right-wing Republican, gave Dirksen a private tongue-lashing for helping to overturn the aid ban. "You have pulled the rug out from under us," he barked, his face livid with rage.

and surprised by the Senate action, sent his aides scurrying up to Capitol Hill to find out whether the damage could be undone.

Minnesota's fast-thinking Sen. Hubert Humphrey came up with the suggestion that eventually was adopted. He recommended to Presidential Aides Larry O'Brien, Ralph Dungan and Mike Manatos that the State Department patch together a compromise, permitting the shipment of farm surplus to Communist countries.

Humphrey pointed out this would not only help thwart Khrushchev's purposes but would relieve the bulging farm surplus problem.

The State Department submitted the Humphrey compromise to the Senate Foreign Relations Committee which hastily approved it after slight modifications by GOP Sens. Everett Dirksen of Illinois and Bourke Hickenlooper of Iowa.

NEXT MORNING, Kennedy asked Sens. Claiborne Pell of Rhode Island, John Carroll of Colorado, and Humphrey to stay behind after a routine White House ceremony honoring the humanitarian, Dr. Toni Dooley.

The President pointed out that both Eisenhower and Truman had been given far broader authority in dealing with Iron Curtain countries. It was none other than the late Secretary of State John Foster Dulles, a rigid anti-Communist, who first sought aid for Communist Poland.

Kennedy Can't Stop Criticism

By DAVID LAWRENCE

WASHINGTON — What kind of "image" do the people have of a President of the United States? Do they think of him as an ordinary mortal who reveals his annoyances and exuberances the same way that the average man does in everyday life? Do they think of him as a man of dignity, calmness, and fairness — a man not given to bad temper or irascible outbursts, but the kind who, while at times inwardly pained, nevertheless exhibits outwardly the tolerance which a leader of the people is expected always to maintain?

These questions come to mind when one reads that President Kennedy the other day ordered 22 subscriptions to the New York Herald Tribune canceled, thus notifying his entire staff not to read one of the principal newspapers of the country that presents the "other side" as well as the administration's side.

One of the aides of Mr. Kennedy is reported to have argued that, like anyone else, the President has the constitutional right to read what he pleases. This is reminiscent of a cartoon some years ago in The New Yorker portraying an individualist being carried away, and the single caption read: "He had the right of way."

A President can continue to pick and choose what he reads but, if he shuts himself off from criticism, he runs the risk that in this era of polemical politics he will not understand just why public opinion is being turned against him. If he is interested in reelection—and what President isn't?—the man in the White House will want to watch closely the currents of public opinion day by day so he can the more effectively put his own case before the voters, correcting errors and at the same time countering criticism with new proposals or policies.

IT IS easy enough to say that there are plenty of other newspapers critical of the administration which Mr. Kennedy could read to take the place of the one he canceled. But this is not really a persuasive answer to the criticism which now will spread throughout the country. What will the people think of a President who gives the impression that he cannot tolerate reading the views of those who disagree with him? Is this the kind of image that any man in the White House would really want people to have of their President?

For the people do idealize the office of President. They think of it not merely as a trusteeship in their interest. They have an almost monarchical worship of the highest office in the land. They feel a throb of patriotism when the band plays "Hail to the Chief," and the chairman of a meeting says, "Ladies and gentlemen, the President of the United States." For he is the people's President—their leader, their choice—as a ruler for four years.

ANY PERSON can become angry, but a President isn't supposed to do so in public. He's supposed to have the patience of Job and to have the courage to rise above petty annoyances. For somehow he doesn't represent just himself, or his family, or even his party. He represents the United States of America before the world.

The American people "liked Ike" because he didn't play politics, even though realistically this was a bit of a handicap to him.

Eye Brow Pencil Used To Remove Scratches From Your Furniture

If you will turn to the color comic section of your next issue of the Winona Sunday News you will find this helpful hint for the care of furniture plus many other helpful suggestions for clothes, cooking, etc. Here are a few that will appear on Sunday, June 17th:

SHIRT TALE

DEAR HELOISE: I have a simple trick which I use to keep my boys' shirt tails in place.

I taught my boys to tuck their shirt tails inside their underpants. This keeps their shirts neat in place. And Heloise, do you know that this same method can apply to little girls who wear shorts and slacks suits? —R.R.B.

DEAR HELOISE: I put my liquid detergent in an old hand lotion dispenser bottle. It's faster to "punch the button" than to unscrew a cap. —Mrs. W. R. Osment

DEAR HELOISE: I got cranberries on my beautiful table cloth and found that camphor would remove it. —Mrs. L.M.

This feature is written for you, the housewife and homemaker. If you have a hint, problem or suggestion you'd like to share write to Heloise today in care of this newspaper.

Dear Dr. Molner: Even a small amount of milk gives me severe cramps and diarrhea. I thought milk agreed with everyone. I have tried various substitutes, also buttermilk, with a little less discomfort. However, they do not take the place of fresh milk. —MRS. M. H.

Milk is a wholesome food but, subject, like everything else, to the adage that one man's meat is another's poison. Some people are allergic to milk. Indeed, I could point out some healthy young adults who as babies were raised on soy bean milk because cow's milk bothered them.

Buttermilk has the same amount of calcium as whole milk; drink it if it is less annoying to you. Have you tried condensed milk? It sometimes is well-tolerated when whole milk is not.

Dear Dr. Molner: As a trained nurse and member of the Nursing Committee of the hospital where I work, we recently discussed the problem of visitors. We have too many of them; they stay too long; frequently they have not seen for some time because of the hospitalization. Anything you might write about this problem would, I am sure, be appreciated by hospital staffs.—P.M.K. Yes, and by patients, too!

Doctors and nurses can see the results of too much visiting. A patient sick enough to be in the hospital is generally sick enough to need rest, and to want to lie still and relax. Why do some people forget this? Why do determined cheery visitors have to include the folks who arrive at the first possible moment and stay until after visiting hours are over? Some of them chatter away for two hours, or more if they can get away with it, about all the local gossip, while the patient weakly says "yes" and "no" and wishes such energetic visitors would please go away.

Shorter, somewhat more frequent visits, are better than long ones. Having been hospitalized myself at times, I know how it is. I'd often like to say, "Thanks for coming, but go on home now. I'm tired." But I never do. I'm afraid, for what reason I don't know, of hurting some well person's feeling while I, the victim, am sick.

Here are rudimentary rules to follow: 1 — Visit oftener, but leave sooner. 2 — Keep conversation light. Don't drain the patient's energies by insisting on "heavy" talk.

3 — For heaven's sake, don't yawn about symptoms, or of people who almost died of what the patient has. 4 — No more than three visitors at a time, maximum, preferably only one or two. Crowds cause confusion, there's no place to sit, the patient, by habit, worries about the guests. That shouldn't be.

5 — Don't go to the hospital with a cold, much less a slye, boil, any infection, the sneezes. Even a slight infection can be devastating to someone who is already ill. 6 — Don't sit on the patient's bed. Everybody, ill or well, can carry staphylococcus germs on hands or clothing. If possible, don't even touch the patients.

7 — Keep conversation soft, quiet and easy. Even if YOU're friend enjoys your hilarious jokes, the patient next door may grind his teeth at the laughter. 8 — My pet peeve is loud radios and TV sets. Hospital staffs hesitate to lay down the law until things are thoroughly out of hand. Don't let things get so noisy that a request for quiet is mandatory.

9 — The best time for a visit isn't when the patient, at his sickest, is just going in. It's better when he's soon to go home. 10 — A visit to the patient's home, after leaving the hospital, is still a good gesture. Convalescence there may be boring and visitors are more welcome. 11 — Read Rule No. 1 again.

7 — Keep conversation soft, quiet and easy. Even if YOU're friend enjoys your hilarious jokes, the patient next door may grind his teeth at the laughter. 8 — My pet peeve is loud radios and TV sets. Hospital staffs hesitate to lay down the law until things are thoroughly out of hand. Don't let things get so noisy that a request for quiet is mandatory.

9 — The best time for a visit isn't when the patient, at his sickest, is just going in. It's better when he's soon to go home. 10 — A visit to the patient's home, after leaving the hospital, is still a good gesture. Convalescence there may be boring and visitors are more welcome. 11 — Read Rule No. 1 again.

Medical Chief For Willmar Hospital Named

ST. PAUL (AP) — Dr. Paul L. Dunstan, Willmar, today was appointed chief of the medical staff at Willmar State Hospital.

Appointment was made by Morris Hursh, state commissioner of public welfare. Announcement was made jointly by Hursh and the West Central Mental Health Center at Willmar, where Dunstan has been clinical director since 1950.

The new chief of staff will assume his duties July 1 upon resignation of Dr. Vera M. Eiden, who will become chief of psychiatry in Ancker Hospital in St. Paul.

Dunstan's appointment is for the fiscal year 1962-63, or until a full-time medical director for the hospital can be named. He will continue to serve as clinical director at the West Central Mental Health Center.

Dunstan was born in Brazil where his parents were missionaries. He was graduated from Baylor medical school in Texas in 1939, certified in psychiatry in 1948 and came to Willmar in 1959 from St. Petersburg, Fla.

Tipsy Flying Charge Placed

KENTLAND, Ind. (AP) — A Wisconsin pilot was charged with flying under the influence of alcohol after his plane struck a power line and crash-landed in a field five miles north of here Monday.

The pilot, Louis Belsha, 29, Milwaukee, told state police he hit the line while emerging from a cloud cover. But a deputy sheriff said he saw the Cessna 172 flying at an excessively low altitude 10 miles north of the crash scene.

Belsha's passengers, Elmer D. Phillips Jr., 28, and George Neal, 34, both of Milwaukee, were charged with public intoxication. Neal suffered a cut on his right arm when the windshield splintered in the collision with the power line.

Rushford Sets Polio Clinic

RUSHFORD, Minn. — A clinic using the new oral polio vaccine will be held at Rushford High School gym from 9 a.m. to 9 p.m. Friday.

The clinic will be sponsored by the Rushford Federated Club and the Priscilla Club and will be supervised by the Community Clinic.

The cost for each dose is 25 cents. The National Foundation recommends that everyone from four weeks of age and older receive the vaccine although he may have had injections previously.

The oral vaccine is administered on a sugar cube. There will be two more clinics held a month apart as it is necessary that three doses of the oral vaccine be administered for full immunity to all three types of poliomyelitis. The clinic will be open to everyone and is not restricted to residents of Fillmore County.

She Flies High on Her 87th Birthday

SPRING GROVE, Minn. (Special)—A jet plane ride is no novelty these days but spending an 87th birthday high above the clouds, as did Mrs. Regina Kjos of Spring Grove, is out of the ordinary.

Mrs. Kjos, accompanied by her daughter and husband, Mr. and Mrs. Emil Trehus, Spring Grove, left Monday for Oakland, Calif., to visit the Trehus' daughter, son-in-law and family, the Rev. and Mrs. Walter Gravrock. They also attended the high school graduation of Paul Gravrock, son of the Walter Gravrocks.

Traveling by plane is no new experience for Mrs. Kjos, as she has made several flights between here and California in the past several years.

Shell dealers suggest 15 ways to make your car last longer

Shell scientists dedicate their working lives to the care and feeding of automobiles.

They can offer dozens of tips on prolonging the life of what is probably your second biggest investment. Here are some useful samples:

1. Learn to read tail pipe smoke signals. Blue smoke means too much oil is getting into the combustion chambers. Your piston rings may be worn. Black smoke is an indication of too much gasoline in the air-fuel mixture. Your carburetor may need an adjustment. White smoke is mostly water vapor. Don't worry about it.
2. Check wheel alignment at least twice a year. An out-of-line wheel can increase tire wear as much as 50 percent. Also, keep your wheels balanced. An unbalanced wheel pounds the tire against the pavement, wearing the tread unevenly.
3. Rotate tires every 6,000 miles. Be sure to include your spare. This helps tires wear evenly, last longer. Your Shell dealer can take care of this for you.
4. Avoid high speeds and save your tires. High speeds increase tire wear drastically — by as much as 80% over normal wear.
5. Use your engine to save your brake linings. Try to avoid hard, sudden braking. When you see you'll have to slow down, take your foot off the accelerator early and let the engine's compression do some of the job.
6. Warm up slowly. Racing an engine to warm it up ages it fast. A short warm-up at moderate speed is good for your car even in summer. But never race your cold engine to warm up. It may damage critical working parts before lubrication can be fully established.
7. Have your engine's spark timing set to proper specifications. Spark timing determines whether your plugs fire at the right instant. With incorrect timing, you can lose power and mileage. Also, your car may knock. And chronic knocking can damage your engine.
8. Use a gasoline that controls knock. If your engine persists in knocking, you may need a gasoline with more anti-knock components, for a higher octane rating. Super Shell contains all of the anti-knock ingredients required to help your car deliver knock-free performance.
9. Have your oil checked whenever you fill up with gasoline. Oil does not wear out. But it can be lost through leaks or burning. And it does get dirty. Worse yet, oil can become contaminated by combustion by-products — including acid. Suggestion: use new Shell X-100® Premium Motor Oil. It fights engine acid and four other troubles that can shorten engine life.
10. Change your oil filter element regularly. The filter is designed to catch and hold foreign particles so they can't get into your engine. Replacing the filter element at regular intervals helps your engine last longer.
11. Have your car's cooling system checked in spring and fall. Cooling system rust inhibitors can wear out. Rust, corrosion and sediment may then start to form. In the spring, let your Shell dealer

inspect your entire cooling system. When he drains and refills, he'll add a special Cooling System Protector.

In the fall, you get a free cooling system inspection when you have Shellzone anti-freeze put in by your Shell dealer.

12. Get a lubrication job regularly. Dirt and moisture can work into chassis joints and bushings, causing friction and wear. Grease can also eventually pound out, leaving the parts unprotected. Shell lubrication at regular intervals helps protect those vital parts.

13. Keep door and body panel drain holes clear to foil rust. There are little drain holes at the bottom of body panels and doors. They can get clogged so that the panels actually hold water. Result: Rust forms more easily, can eat through the metal. Make sure drain holes are clear.

14. "Bandage" minor scratches in your car's finish. Until you can have the scratches refinished, keep rust from forming with a coat of touch-up paint or a strip of cellulose tape.

15. Let your Shell dealer help your car last longer. Your car may have cost you thousands of dollars. Treat it carefully. Feed it well. Let your Shell dealer help you on both counts. You will save money — and increase your driving pleasure, too.

Ring Is Graduation Gift, Not Engagement

HOLLYWOOD (AP)—Rick Nelson says the pearl-and-gold ring he gave Christine Harmon, 17, is a graduation gift, not an engagement ring—but friends say they wouldn't be surprised if an engagement follows.

Miss Harmon, daughter of sportscaster Tom Harmon and actress Elyse Knox, displayed the ring to other graduates at Marymount High School.

She and the 22-year-old teenage idol, son of Ozzie and Harriet Nelson, have been dating for two years.

Wheat Market Quota Delayed One Month

WASHINGTON (AP)—The Senate quickly approved a month's postponement Monday of the time for proclamation of a 1963 national allotment and marketing quota for wheat and also the time for a referendum on the wheat program. The resolution was sent to the House.

The deadlines now are June 15 and July 25, respectively.

George Rahman, Bride at Home In Plainview

WABASHA, Minn.—Mr. and Mrs. George Edward Rahman are at home at Plainview, Minn., after a wedding trip to Southern Minnesota and Iowa.

The former Miss Patricia Ann Ferraro, daughter of Mrs. Philip Carrels, Wabasha, and Mr. Rahman, son of Mr. and Mrs. Edward Rahman, Elgin, Minn., were married May 19 at St. Joachim's Catholic Church, Plainview. The Rev. S. E. Mulcahy performed the ceremony.

THE BRIDE who was given in marriage by her father wore a floor-length gown of white Chantilly lace made with boat neckline edged with pearls, three-quarter length sleeves and princess line skirt extending into a chapel train. Three bows on the skirt were centered with pearls. Her veil was attached to a braided crown trimmed with pearls. She carried white carnations.

Miss Linda Carrels, sister of the bride, was maid of honor and Mrs. Duane Herold, Waumandee, Wis., was bridesmaid. They were attended in light blue chiffon dresses and carried white carnations.

Best man was John Rahman, brother of the bridegroom, and roosterman was Jerry Rahman, Rochester, Minn. James Burke, Plainview, and Larry Passe, Kellogg, ushered.

THE WEDDING dinner for 40 was held at the Idle Hour, Wabasha, and a reception for 300 was held from 2 to 5 p.m. Assisting at the reception were the Misses Phil Bishop, Joan Johnson, Fran Alden, Marlene Shorter, Barbara Burke, Arlene Rahman, Ruth Ann Rahman, Doloris Rahman, Mary Ferraro and Lucille Wempen.

The bride is a graduate of Wabasha Public School and was employed at St. Mary's Hospital, Rochester, Minn. The bridegroom attended Elgin High School and is employed by Vern's Trucking Service.

Sister of Mrs. Cady, and Jay Madole, China, Calif.

On Sunday, 250 persons greeted Mr. and Mrs. Cady at the open house. The anniversary cake, baked by Mrs. Martin Johnson, Fremont, Minn., was topped by a miniature team of horses and coach with the inscription, "Cady Express—since 1924."

Tense Nerves Block Bowels

New tonic-tablet laxative acts on colon muscles... de-constipates overnight.

The muscular wall of your colon contains nerves known to medicine as *Auerbach's Plexus*. In regular people, these nerves tell the colon muscles to propel and expel waste from the body. But tense nerves or emotional upset can block your normal bowel habits. Your colon muscle impulses are no longer strong enough to eliminate waste—which dries and shrinks, further aggravating the condition.

Relief, doctors say, lies in the non-irritating, de-constipating principle of a new tonic-tablet called COLONOID. Of all leading laxatives, only COLONOID

gives you its special 3-way overnight relief for tension-caused constipation. (1) COLONOID stimulates your colonic nerve network, to further activate and regularize its muscular "movement". (2) COLONOID's unique re-bulking action helps re-tone tense colon muscles. (3) COLONOID moistens for easy passage without pain or strain.

COLONOID relieves even chronic constipation overnight; it is so gentle it was hospital-proved safe even for expectant mothers. Get COLONOID today. INTRODUCTORY SIZE 43¢.

Flood Peril at Crookston Eases

CROOKSTON, Minn. (AP) — Crookston's flood threat tapered off today after the Red Lake River crested at 21.9 feet Monday night and began slowly receding.

However, dike patrols continue to watch the levees along the river on a 24-hour basis guarding against possible breaks that would send the still-high waters pouring into lowlands.

The flood crisis passed without any serious damage, although some streets were pitted with holes as a result of seepage.

The river crested at about 2½ feet above flood stage.

Staff Training Week Opens Camp Season

Winona Girl Scout camp season opened Sunday at Trempealeau, Wis., with the arrival of summer camp staff. They will spend the week in training and program planning.

The camp staff was introduced to council members at the tea honoring Miss Leona Ebel, executive director, today at the First Congregational Church.

Returning to the camp staff for the third year are Miss Colleen Jacobson, Racine, Wis., as director; Mrs. Goodwin Erickson, Winona, cook; and Carl Johnson, Winona, handyman and bus driver. Miss Janice Wehlsirand, St. Paul, returning as a unit leader for her second summer camp, will teach some of the Indian bead-craft she learned during the year. Miss Sylvia Wedul, Winona, also a second year staffer and a student at Winona State College, will be an assistant unit leader.

Other counsellors include unit leaders Miss Kathryn Anne Plau, Mankato, who will be in charge of the waterfront program and Miss Marilyn Ann Lemanczyk, Milwaukee, and assistant unit leaders Miss Patricia Healey, Minneapolis, who is qualified to teach swimming and canoeing, and Miss Karen Kalbrener, Winona, a member of Winona troops 10 years. Mrs. Shirley Bulov, Minneapolis, will be camp nurse.

Girls will arrive Monday for Pioneer Camp, the first session. There are still a few openings in the various camp sessions. Girls wishing to register for any type of summer camping may contact Mrs. Madeo Molinari, camp registrar, at her home at 768 Glen Lane, or by phone. Final payment of camp fees is to be made to Mrs. Molinari at her home. The office is still accepting applications for Senior Girl Scout Program Aides. Approximately 400 Girl Scouts will be attending Camp Wj-Gi-Sco-Ca during the coming camp season.

VFW Plans Picnic On Prairie Island

VFW members will meet Wednesday at 8 p.m. in the clubrooms. Following the meeting games will be played and refreshments will be served with Frank Took and his committee in charge.

The annual VFW picnic is slated for July 1 at Latsch Pavilion, Prairie Island starting at noon. Hot dogs and sloppy joes will be served by the auxiliary. Members are to bring their own glasses.

'Fashions for '62' Tells of Trinity Women's Aims

SPRING GROVE, Minn. (Special) — Rachel Circle, presented "Fashions for 1962," a skit telling the program and objectives of the Trinity Lutheran Church Women last week in the church parlors.

Mrs. Hans Tweeten was the model and Mrs. Emil Quinzel pinned the "dress." Mrs. Helmer Gulbranson, Mrs. Esther Buxengard and Mrs. Verdel Benson were narrators.

"Youth" was the cause of the month given in the stewardship presentation by Mrs. Palma Anderson. Mrs. Lela Helland opened the meeting with devotions.

Mrs. Leonard Sylling was elected delegate to the district convention at St. Olaf College, Northfield, June 26 and 27. Mrs. Wayne Bunge was named alternate. It was voted to send \$50 from the TLCW for the offering. The convention offering is to be divided between the new Lutheran College in California and the new radio station in Ethiopia. Mrs. Almer Sylling explained these projects.

Education secretary Mrs. Richard Staupé said she is ordering Bibles to be presented in September to the third grade Sunday school children.

Mrs. Donald Holm received recognition for the newsletter to the congregation which she and her committee are sending each month. Adah Circle was in charge of the nursery. Mrs. Paul Rosen-dahl, chairman, and the Mmes. Donald and Harold Rosendahl, Anna, Charles and Gerhard Röverud, Curtis Sand, Arthur Sanderson, Merlin Schveel, Ernest Schmidt, Lyle Solberg and Miss Judy Solberg were in charge of the social hour.

25TH ANNIVERSARY

Mr. and Mrs. George Miras, 555 E. Joseph Cierninski have one son, Steve, in the Navy at Pearl Harbor, Hawaii. No formal invitations have been issued.

Alma Alumni Hold Reunion

ALMA, Wis. (Special) — The annual banquet and meeting of the Alma High School Alumni Association was held Saturday night in the school auditorium.

President Willis Capps was in charge with officers, Mrs. Norbert Noll, vice president, Mrs. Wilfred Hetrick, secretary, and Miss Blanche Schneider, treasurer. Edwin Grotjahn, Prairie du Sac, Wis., was master of ceremonies.

Mrs. George Ulrich and Miss Elsa Hanck were given corsages as members of the 50 year class. Mrs. Ulrich gave a brief history of members of her class.

Mr. Grotjahn awarded prizes to the following: H. F. Ibach and Henry Klee, Madison, for sending in the first out-of-town reservations; James Breivick, first local reservation; Mrs. Paul Pearson, a member of the 1937 class holding their 25th anniversary reunion who never missed a meeting since its organization; Wayne Kannel, gift

from the association, and to Mer-lin Hoch, Minneapolis, for crossing the river to attend the meeting.

Mrs. Ralph Miller, formerly Irene Laufendurger, Houston, Texas, was introduced. She was recently graduated from the University of Texas and had come to Alma to attend the 25th anniversary of her high school graduating class. Her daughter, Marion, who also was graduated from college last week, accompanied her.

Capt. Gaylord McCabe, home on furlough, and his wife and mother, Mrs. Mae McCabe, Winona, were present. He and his family will be stationed in Bermuda several years.

New officers elected are: President, Miss Blanche Schneider; vice president, Alfred Ebert; treasurer, Mrs. Norbert Noll, and secretary, Mrs. Wilfred Hetrick.

A report was given on the Norma Pelunek Memorial fund and donations were accepted by the committee of Mrs. Jerome Baeker, Mrs. Glenn Turton and Andrew Jost. Following dinner, the group went to the Legion Hall for dancing.

2 Districts Inquire About School Here

Representatives of two Lewiston area rural school districts conferred with the Winona Board of Education Monday night on the possibility of children from the districts attending high school here and cost factors involved if they were to be enrolled.

The four-member delegation emphasized that it was making no request for acceptance of the students in the Winona system. The visit, they stressed, was simply to obtain information to be presented to residents of the districts at meetings later this month when decisions are to be made regarding possible attachment to the Lewiston district.

REPRESENTING common school districts 2616 and 2605—adjacent districts situated between Stockton and Lewiston on the Lewiston-Rollingstone road—were Gerhard Rupprecht and Richard Dorn of 2605 and Richard Tews and Gene Schumacher of 2616.

The principal spokesman for the group was Rupprecht who said at the outset, "We want it understood that we're on good terms with Lewiston and we're not here to bargain with you on buying education. We just want to investigate what possibilities are open to us."

Lewiston for some time has been considering a school building program and reportedly recently advised all districts in its area that don't operate elementary schools that they may not provide instruction for their children next year unless they join the Lewiston district.

Rupprecht said that in Districts 2616 and 2605 about 16 children of high school age are involved. They've been going to Lewiston High School and the elementary school population—relatively small—really doesn't figure because most of them attend parochial school.

AT THIS MONTH'S school meetings the districts will consider merits of attaching to Lewiston or sending students elsewhere. Rupprecht told Winona directors, "We're not here to stir anything up. We're just interested in finding out where we can get the best education possible for our children most economically."

Most of the rural districts involved have only a few children so their present school costs are relatively low. Attachment to Lewiston, if it undertakes a building program, would result in a substantial increase in the costs to the districts.

Superintendent of Schools A. L. Nelson told the delegation that as far as facilities here are concerned, "We have no serious space problems now in our elementary schools but we anticipate the situation at the secondary level will become increasingly difficult in the next couple of years."

AS FAR AS COSTS are concerned, Nelson said that nonresident students enrolled in the public schools here are charged the actual cost of instruction. That varies from year to year but last year was \$424 per elementary pupil in average daily attendance. Lewiston's per pupil cost at the elementary level, Nelson said, this past year was \$382.

At the high school level the cost in Winona runs to \$635. Tuition of nonresident elementary pupils is paid by the district; tuition for high school students by the county. Nelson said there were two important factors that should be considered by any district contemplating sending their students here. First, Winona offers no general free transportation of students and, second, formal action by the district to send students here would be necessary if hired buses were to be allowed to pick up children in the district.

"WE, AS A school board," Nelson explained, "are not out soliciting students in any way. Our decision on whether we would accept students from outside our district would have to be made on the basis of whether space is available. I'm sure that Winona taxpayers would feel that if we're not able to provide adequate facilities for our own students we shouldn't be accepting any nonresident enrollments."

Board President Lawrence Santelman said the board did not want to put itself in a position where it would be competing with other high school districts for students. "This is not to convey the idea that we're not interested in your

people," Santelman explained. "If we have room and you want your children to come here we'd be glad to have them. But, this is a decision that has to be made by you and we would never want anyone to think that we in any way were coaxing anyone in."

Santelman asked which school would be most convenient from the standpoint of transportation. Rupprecht replied that although routes vary, District 2616 was almost as close to Winona as to Lewiston while his district was a little closer to Lewiston.

SCHUMACHER asked whether if students from the district were sent to Winona for one year and conditions became crowded here the nonresident pupils would later be denied enrollment.

Nelson acknowledged that "if our schools became overcrowded it's entirely possible some people might say that we should eliminate some of the nonresidents. That is a possibility and I suppose that if we found it necessary to reduce our nonresident enrollment the last ones accepted would be the first to go. It would probably depend on how much pressure was brought to bear."

Santelman suggested that the delegation bring back the information to their respective boards and make a decision. If the districts should decide to send students to Winona and Winona were to accept them, then formal action through the county superintendent of schools would be made.

Trempealeau County Continuing Special Education Classes

WHITEHALL, Wis. (Special)—The Trempealeau County school superintendent, Mrs. Lily Reich, has announced that special education on the elementary level will be continued in the county.

Miss Margaret Larson, Whitehall, will return to Blair, Miss Ellen Loomis, Mondovi, will conduct the room at Chimney Rock, and Mrs. Florence Jorgensen, Blair, will conduct the secondary room at Independence.

The county school supervisors, Miss Evelyn Kennedy and Maurice Ewing, will return as consultants.

JUNIOR GOLFERS

Winona Country Club junior golfers will begin activities Thursday morning. Those interested in golf lessons are to be at the Country Club at 9:30 a.m. Mrs. Jack Leaf is chairman.

BONN BOMBSHELL . . . Lottie Brunn, a native of West Germany, keeps the air filled with variously identified flying objects. She is one of the featured performers with the Shrine Circus which plays Saturday and Sunday at Jefferson Athletic Field. She appears here fresh from engagements at the London Music Hall and as a guest on the Ed Sullivan television show. She will appear as the Clyde Brothers Circus presents matinee and evening performances both days.

Teenage Road-e-o Entries Asked

Young Winona drivers interested in qualifying for the Minnesota Teenage Road-e-o at St. Charles Sunday may do so

through the Junior Chamber of Commerce, it was announced this week by Jaycee officials.

Local entrants are to write for information to the Winona Junior Chamber of Commerce, 376 E. Sarnia St. Eliminations will be held and winning drivers qualified for the state competition at St. Charles.

Kaehler District Votes to Join With St. Charles

ST. CHARLES, Minn. (Special)—About 31 Kaehler district youngsters are changing their plans for school next fall.

Thirty-two of Kaehler's approximately 34 eligible voters decided Monday night to join Kaehler district to St. Charles Consolidated School District.

There were 21 votes for and 11 opposing the merger with Independent School District 858, Winona County. Until now Kaehler has been sending its youngsters to St. Charles only after they completed sixth grade. The addition of these students increases St. Charles' assessed valuation about \$78,000.

Canton Recreation Program Beginning; Swimming at Decorah

CANTON, Minn. (Special)—Canton will begin swimming, Little League, Babe Ruth, T-ball and golf activities in the next two weeks.

Swimming students will meet at Canton school or Prosper oil station at 1:15 June 19 and every Tuesday and Thursday thereafter. Students who will be in at least first grade next fall are welcome. Recreational swimmers will not be allowed in the Decorah swimming pool the first hour while lessons are in progress. Swimming students are permitted only three absences.

Boys 9 to 12 who wish to play Little League ball will meet Thursday at 1:30 at the school. The first game is Monday against Mabel at 1:30. Babe Ruth players meet Thursday at 3 p.m. to practice for their Mabel game Monday at 3 p.m.

Youngsters interested in T-ball will meet June 21 at 10 a.m. at the school. Pupils 6 to 9 are eligible.

Future golfers should meet at the school Tuesday and Friday mornings beginning June 19.

FOSTER CHILDREN

Do You Want Child In Home for a While?

Foster homes are urgently needed for dependent and neglected children. William P. Werner, director, Winona County welfare department, announced.

Werner said the number of such unplaced children fluctuates sharply and a registry of licensed foster homes is needed to assure prompt placement.

THREE SMALL children need homes now:

- A curly haired boy, who is mentally retarded and needs care until the welfare department can better assess his development. The child is slow in physical and mental development.

- A normal boy who would do well in any wholesome environment where he would get love and understanding.

- A normal girl who needs a similar home.

THERE ARE about 15 licensed foster homes in the county now. But more are needed for two reasons:

- The larger the number of licensed homes, the better chance to find the right environment to meet a child's special needs.

- Under state law, there can be a maximum of five children—foster, natural or both—in a foster home. Some of the homes already licensed have this maximum number now and cannot take more children.

The county pays for the dental and medical care of foster children and also provides clothing. The foster home receives a daily payment of \$1.60 for each foster child. Werner said this is an admittedly modest sum but that the main motivation of foster parents is a love of children rather than personal gain.

MISS Evelyn Taraldson, the county department's casework supervisor, said neglected children frequently make remarkable progress in a foster home. Such was the experience of one undernourished child with matted dirty hair, a child who didn't know where it would sleep the next day until being placed in a foster home.

The county department prefers to place children in foster homes rather than in such institutions as orphanages since children develop best in a home environment, Werner said.

Miss Taraldson said the foster home is meant to be a temporary substitute for the child's own home. This temporary period can last from several days to years. The age range of children cared for in foster homes is from infancy to 16 years.

ONE ESSENTIAL provision in the foster parents' agreement signed by the foster parents and the county welfare department reads:

"We will treat the child or children placed in our care as members of our family, and when recommended by the agency, we shall make every effort to keep alive the children's relations to their own parents."

Whenever possible children are placed with foster parents of the same religion.

Werner urged persons interested in becoming foster parents to phone his office promptly.

DEAR ABBY:

Her Husband Insurance-Shy

By ABIGAIL VAN BUREN

DEAR ABBY: What do you do with a husband who is insurance-shy? We have been married for 15 years and have four children, and he positively will not carry one cent worth of insurance unless he has to. He has auto insurance because he can't drive a car without it. The place where he works has some insurance for him, but in case something happened to him we could never make it on that. I am worried sick over it, but when I bring it up he says, "You're a real locker, Kiddo, and if something happened to me you could get another guy in 15 minutes." How can you reason with a man who takes this attitude? We are not POOR. We have a bank account in six figures!

DISGUSTED

DEAR DISGUSTED: Call a reputable insurance company and ask for an agent who can talk to a man who is bull-headed and ignorant about insurance. Insist that your husband hear him out. He will get an earful. A man who loves his wife and family OWES them this kind of protection.

DEAR ABBY: Seventeen months ago I married a nice woman. She was a thoughtful, tidy and affectionate girl. Now she doesn't even comb her hair. She smokes like a brush fire and likes to sleep her life away. I made a big mistake. I wish I could mail her back to her mother. What should I do?

DEPRESSED AND DISAPPOINTED

DEAR DEPRESSED: Your wife is obviously sick. Get her to a doctor. When a man takes a wife, she is no longer her mother's responsibility, but his! (The same thing could have happened to you.)

DEAR ABBY: Whenever we entertain, my husband and I take our guests' coats and hang them in the clothes closet. Some of our friends ask their guests to "lay their coats on the bed in the bedroom." We think this is awful. What do you think?

MRS. FUSSY

DEAR MRS. FUSSY: If you have the closet space to hang your guests' coats, congratulations. But some people do not, in which case there is nothing wrong with asking their guests to lay their wraps on the bed.

CONFIDENTIAL TO ETHEL: The grinding that would wear away to nothing a lesser stone, merely serves to give luster to a diamond.

How's the world treating you? For a personal, unpublished reply, send a self-addressed, stamped envelope to Abby, care of this paper.

Deer Population At Blair Expands

BLAIR, Wis. (Special)—Twins or single births? Dick Benson, caretaker of the deer pen at Blair Riverside Memorial Park, was puzzled last week.

June 1 one fawn arrived and Tuesday another was born. After all July 10, had lived in the park more than seven years, and given birth to five sets of twins and

three other fawns in that time. Caretaker Benson finally decided that Judy became a mother once and grandmother once last week—Judy's offspring, Karen, had given birth to the second fawn. Judy's offspring have been famous before. Judy gave birth to a fawn during Blair Centennial Days in 1955 and the deer was named Daisy Bell, honoring the centennial queen. She now resides in a neighboring state.

The new fawns are named Pamela and Mark.

Storm Damages Crops, Buildings in Taylor Area

TAYLOR, Wis. (Special)—Rain and hail did serious damage to crops and buildings south of Taylor Sunday. Residents reported that hail in ditches beside the highway resembled snow drifts.

On George Huseboe, Lawrence Arundson and Archie Hanson, farms there were reports of crops being plastered against the ground. Wind and hail tore the roof off John Jolen's brooder house; Charles Halverson's strawberry beds were ruined, and Harold Iverson's crops were seriously damaged.

9 Chinese Refugees Granted U.S. Entry

HONG KONG (AP)—A family of nine Chinese refugees left Monday night for Washington, D.C., the largest group so far to be granted entry to the United States under President Kennedy's emergency program.

Chang Sir, 36, his wife, their six daughters and one son will join his mother, Anna Wang in Washington. She is a cook in a restaurant.

The family escaped to Macao four years ago aboard a smuggler motor junk. Another smuggler junk brought them to Hong Kong from the Portuguese colony.

A native of Shanghai, Chang worked for the U.S. Army advisory group in Nanking before the Communists conquered the mainland.

Idle Twins Capture Lead

Gamble Pays Dividends

By LEW FERGUSON
MINNEAPOLIS (AP) — President Calvin Griffith of the Minnesota Twins credits a rebuilding program launched while the team was in Washington for the team's amazing success this season.

"In Washington, we had an executive board meeting," Griffith said, "and we decided we had to go bankrupt or come up with a good ball club. We chose the latter and it's been paying off over the last five years."

Adds Griffith, "We've been gambling on some kids, but a few have come through and that has made our ball club this year."

The Twins have continued this spring to be active on the rookie-signing circuit, but Griffith says the club isn't using the "scatter-gun" technique, signing in volume with the hope a few will produce.

"If they're not major league caliber we're not going after them," Griffith insists.

Top rookie prospect signed so far this year is catcher Paul Ratliff, 18, Pasadena, Tex., who got a \$38,000 bonus.

The Twins play the Angels at Los Angeles tonight in the opener of a three-game series and two recent bonus babies will be in the Minnesota starting lineup.

They are Rich Rollins, the club's leading hitter with a .356 average, and Bernie Allen. Rollins got \$26,000 for signing out of Kent (Ohio) State, while Allen got \$50,000 out of Purdue University.

Another Minnesota rookie, Joe Bonkowski, will start on the mound for the Twins. Bonkowski (5-4) earned himself a spot in the starting rotation after not even being on the parent club's roster at the start of spring training.

He'll be opposed by Los Angeles' Don Lee (4-3), who only two weeks ago was one of the Twins' starting hurlers before being traded for Jim Donohue. It will be the first time Lee has faced the Twins since the trade.

The Twins, 10 games over .500 in the torrid American League race for their highest spot into the upper reaches of the A.L. in five years, led the American League by half a game over New York and Cleveland after the Yankees bowed to Baltimore 5-3 Monday night.

It's the start of a 10-game road trip for Minnesota, a jaunt that takes the team to Los Angeles, Kansas City and Chicago. The Twins return home June 22 for a three-day, five-game set with the White Sox.

Littler Second In Golf Winnings

DUNEDIN, Fla. (AP) — Gene Littler, who will defend his title this week in the U.S. Open, has moved into a strong second position among professional golfing's top money winners.

The \$25,000 Littler won last weekend in the \$100,000 tournament at Clifton, N.J., gave him total winnings for the year of \$53,704, according to Professional Golfers' Association headquarters.

Arnold Palmer still is in first place with a total of \$60,311, even though he won only \$400 in the New Jersey tournament. Bill Casper Jr. won \$950 to give him a total of \$12,130 and third place among the top 10.

Jack Nicklaus, who won the \$100,000 second prize, vaulted from eighth place to fourth with total winnings of \$28,190. Rounding out the top 10 are: Gary Player \$22,668, Phil Rodgers \$22,330, Bobby Nichols \$20,975, Dow Finsterwald \$20,296, Doug Sanders \$19,421, and Bruce Crampton \$17,273.

LEGION GAME IS RESCHEDULED

Caledonia's scheduled Minnesota-Wisconsin Legion League Baseball opener set Monday night at La Crescent was postponed.

According to Gary Grob, Caledonia coach, the contest will be played as part of a two-night doubleheader at Caledonia later in the season.

CLIMBS TO .356

Rollins Leads Major Leagues

NEW YORK (AP)—At the start of the 1962 spring training baseball season, the Minnesota Twins had five candidates for the third base job. Harmon Killebrew, George Banks, Johnny Goryl, Bill Tuttle and Rich Rollins.

Rollins hit at a .500 clip last week, collecting 14 hits in 28 times at bat and lifting his mark 21 points to .356. He took over the top spot from Kansas City's Manny Jimenez, who slumped 21 points to .341. Al Kaline of Detroit, out with a broken collarbone, is third with .336.

In the National League, Felipe Alou of San Francisco jumped into the lead on the strength of an

eight point pickup to .348 while Stan Musial, veteran St. Louis star, zoomed into the runner-up

position at .347. Musial has hit safely in his last 12 games during which he has collected 20 hits in 44 times at bat and increased his average 47 points.

Willie Mays of San Francisco continues to set the National League pace in homers with 21 while Tommy Davis of the Los Angeles Dodgers has the most runs batted in, 64. The figures include Sunday's games.

Jim Gentile of Baltimore, lead the American League in homers with 16. Norm Cash of Detroit and Leon Wagner, Los Angeles Angels, have 15. Floyd Robinson of the Chicago White Sox and Wagner share the RBI lead with 44.

Phillies Throw Roadblock At Cardinals' String 8-5

By MIKE RATHET
Associated Press Sports Writer

Down on paper as a soft touch, Philadelphia's spoiler Phillies have ripped up the form sheet by throwing another roadblock at one of the National League's penat hopefuls and adding this entry to their streak-snapping log:

June 11—Beat St. Louis 8-5, snapping Cardinals' seven-game winning streak.

Monday night's entry was the fourth in a series.

On May 17—The third-place Cincinnati Reds had a six-game victory streak. The Phils won 6-5.

On May 31—The first-place San Francisco Giants had a seven-game string. The Phils won 5-2.

On June 2—The Los Angeles Dodgers, tied for first place, had a 13-game skunk. The Phils won 7-0.

That's the way it's been for the Phils, who don't seem to be going places in that NL pennant scramble could have quite a bit to say about who does.

The victory over the Cardinals dropped St. Louis into fifth place behind the Pittsburgh Pirates, who moved up with a 6-1 triumph over the Chicago Cubs. In the only other games played, the New York Mets defeated Houston 3-1. San Francisco split Cincinnati were rained out.

Home runs by Don Demeter and John Callison powered the Phils to their triumph over the Cards

and paced a 12-hit attack that enabled Philadelphia to beat former teammate Curt Simmons (6-3) for the first time in nine tries.

Demeter hit his eighth homer with a man on in the fifth inning to put the Phils ahead to stay 4-3.

Callison's three-run pinch-hit homer in the seventh brought home the deciding runs. The winner was reliever Jack Hamilton (4-5).

Dick Stuart hit two home runs

for the Pirates—a first inning inside-the-part job with one on and a three-run shot in the sixth. The victory went to Joe Gibbon, winning his first since a trip to the minors cured his ailing arm.

The Mets beat the Colts for the first time in the rivalry between the two new NL clubs. Al Jackson (3-7) limited the Colts to seven hits. The Mets got six against Dick Farrell (4-6) to put it away.

Bean Balls Fly; Yanks Lose

By MIKE RATHET

Associated Press Sports Writer

Bean balls? Who, me?

That was the general tone of the comment Monday night after the incidents that took place during the fourth inning of Baltimore's 5-3 victory over the New York Yankees and precipitated a free-for-all in which Yankee Manager Ralph Houk tried to swing at Orioles' field boss Billy Hitchcock.

Leading off the fourth, Orioles' rookie outfielder John (Boog) Powell was hit in the head by a Bud Daley fast ball, slumped to the ground, but remained conscious. He was carried off the field on a stretcher and taken to a hospital where his injury was diagnosed as contusions of the head.

There wasn't much reaction until the first pitch from Baltimore starter Robin Roberts in the last half of the inning sailed over Roger Maris' head. The Yankee slugger started toward the mound, bat in hand and a fierce look on his face.

Maris was restrained by Orioles' catcher Hobie Landrih as players from both teams raced onto the field. Houk and Hitchcock wound up in a heated argument that ended with umpire Charley Berry holding Houk as the Yanks' skipper attempted to go after Hitchcock.

"The Yanks have been throwing at my men all during the series," said Hitchcock.

"I know my man," said Houk. "He didn't throw at Powell. Did Hitchcock order Roberts to throw at Maris?"

"How could I," asked Hitchcock. "I was in the clubhouse with my man who was hit in the head. I didn't even speak to Roberts."

Said Roberts: "I'll talk about anything else. But don't ask me about that. Daley had nothing to say. He left before the game was over."

When it was over, the Yankees were in a tie for second place with the Cleveland Indians, who moved up by belting Boston 10-0 in the only other game played. The Yankee loss permitted idle Minnesota to move into the top spot, a half-game ahead of the runners-up.

When Powell was hit the Orioles already had built a 3-0 lead on a two-run first inning in which

Jim Gentile and Jackie Brandt drove in the runs, and a second

inning homer by Landrih. Yogi Berra homered for the Yankees in the last of the fourth before

Gentile hit a two-run homer in the fifth to put it out of reach. It was Gentile's 16th, putting him into the league lead.

The victory for Roberts (1-2), cut by the Yankees earlier in the year, was his first in more than a year—since he last won for Philadelphia's National League Phillies June 8, 1961—and his first ever as an American Leaguer. He allowed seven hits and three runs in 7 1/3 innings before Steve Barber and Hoyt Wilhelm finished up. Daley (2-1) was the loser.

Willie Kirkland tagged a three-run homer for the Indians in the fourth inning and put them ahead to stay. He later added a two-run double in the seventh for five runs batted in. Bubba Phillips also connected for the winners in support of Jim Perry (5-3), who limited the Red Sox to seven hits. Earl Wilson (3-2) lost it.

The Indians-Red Sox game did not pass without an incident.

Before Kirkland connected for his homer, Wilson was charged with a balk that forced in a run. The Red Sox claimed Cleveland's Tito Francona, running at first base, hollered "Hold it, Earl," causing the pitcher to stumble on the mound.

Baseball's rules state such deceptions are illegal. But umpires John Flaherty and Ed Runge said they had not heard it.

Langowski's Perfect Game Gives Mankato 1-0 Victory

JIM LANGOWSKI
Pitches perfect game

PARK-REC NATIONAL

Mankato Bar	7	1	Sportsman's	4	1
Lang's Bar	2	2	Hamer's	1	7
Sunshine	1	2	Bell's Bar	0	1

By AUGIE KARCHER
Daily News Sports Editor

Jim Langowski registered a perfect no-hit, no-run game Monday night at Athletic Park as Mankato Bar nipped Lang's Bar 1-0 in eight innings in the Park-Rec National Softball League.

Not a runner reached base off the fire-balling right-hander. It was the first perfect game in city softball in recent history, according to available records. Only run came when Bob Welch stole home in the eighth inning.

In the other games last night, Sportsman's Tap edged Hamer's 5-4 and Sunshine beat Bell's Bar 6-1.

THE MANKATO victory put Langowski & Co. into undisputed

first in the National circuit. The two teams were tied going in. In the first meeting this year, Mankato won 2-1.

The loss was a heartbreaker for losing hurler Jim Sovereign who allowed only one hit in the eighth frame, that a first-inning bunt single by Langowski.

Sovereign fanned six and walked three. He allowed only six men to reach base.

Langowski fanned two batters and got flawless fielding support from his mates. Bruce Stanton had eight assists at third base and Welch hauled in Bob Hogen's hard, sinking liner in the sixth to rob Lang's of an almost sure hit.

Mankato had two men on base in the first inning on Langowski's bunt and an error at short, but was unable to score. Sovereign allowed only one other man to reach base, that on a walk, until the eighth.

WELCH OPENED the extra inning by getting life on an error in a close play at first and took second when the low throw got away. After Bob Fischer, Mankato manager popped up trying to advance Welch, Dick Stanton sacrificed him to third.

With two out, Welch took off for the plate when Bob Czaplewski lobbed a throw back to the mound. He was in safely before Sovereign could get the ball back in time.

Fran Hengel of Sportsman's pitched five-hit ball to beat Hamer's. One was a double by Max Kulas. Kulas and Pete Polus each had two hits. George Wenzel Sr. had a triple for Sportsman's and George Jr. and Bob Matejka each had two hits.

Carl Fratzke of Sunshine and Norb Thrune of Bell's matched five-hitters, but Sunshine scored three runs in the first inning to wrap it up early. Pete Jerowski slammed two doubles and Bob Larson one two-bagger for Sunshine. Dick Burmeister hit a triple for Bell's.

Teleprompter Bid Record for Bout
NEW YORK (AP)—The Teleprompter Corp. Monday night made a bid of \$1,700,000—the highest in history—for the ancillary rights of the Floyd Patterson-Sonny Liston world heavyweight championship bout Sept. 22 in Chicago.

Promoter Tom Bolan said two other companies had made bids that did not match Teleprompter's. The company also handled the third Patterson-Ingemar Johansson bout. The price for that one was \$800,000.

Bolan, president of Championship Sports, the promoters, said there was a possibility his group might handle the ancillary rights themselves. The rights include radio, television and movies.

Littler Gains Support; Palmer Injured

OAKMONT, Pa. (AP)—Back to back championships in the National Open Golf Tournament for Gene Littler?

Support was mushrooming today for golf's quiet man in the wake of Littler's brilliant play this year and more woe for tournament favorite Arnold Palmer, who severely gashed a finger on his right hand in a freak accident just when he was confident he had shaken a cold that kept him sub par physically for nearly two weeks.

"Littler's my pick," said two-time former Open champion Gary

Middlecoff as he and the other early arrivals relaxed after a practice round at the 6,894-yard Oakmont Country Club course where the 62nd U.S. Open championship begins on Thursday.

"You don't have to be a big hitter to score on this course," said the Memphis dentist. "You have to be able to drive straight and putt well on these slick greens. Littler's playing beautifully, has been all year. Unless he has a big letdown after winning that big one in New Jersey Sunday (the \$100,000 Golf Classic at Clinton, where Littler nailed

the \$25,000 first prize), he can do it."

A year ago, the soft-spoken Californian quietly tamed another fabled course like this one—the Oakland Hills Country Club at Birmingham, Mich.—for his first Open title. It, too, was a course that demanded great accuracy off the tee and a sure putting touch.

The attitude on Palmer seemed to be to wait and see how much of a problem the slashed finger will pose and whether, as Palmer himself says, he's shaken the slump that dropped him well

down in the Memphis and the New Jersey tournaments the last two weeks.

A doctor took six stitches in Palmer's third finger on his right hand to close the wound he suffered while he was putting luggage in the trunk of his car late Sunday night at the nearby Latrobe, Pa., airport. The gash went all the way to the bone alongside the knuckle.

"It didn't hurt much," the Masters champion said after a practice round late Monday. Palmer seemed considerably relieved that he could hit so well.

Park-Rec Baseball Program Kicks Off

Play began Monday in the Winona Park Recreation Department's vast program of baseball and softball for Winona youngsters.

By the time the full program gets under way, about 700 organized, unorganized players will be participating.

Opening yesterday were the Pee Wee American League, the Tee Ball League, the Tee-Shirt League, the Pee Wee National and the Midget National, the latter the newest circuit of the program.

Winona Schools Asking Federal Aid on Testing

An application for federal aid to help finance the public schools' counseling and testing program was approved Monday night by the Board of Education.

Superintendent of Schools A. L. Nelson told directors that changes in provisions of the National Defense Education Act now make available funds for certain areas of guidance and testing. In the past the public schools here have obtained NDEA funds for purchase of science equipment.

The superintendent said that no expansion of the counseling and testing program here is planned but that federal funds would be used, rather, for assistance in the purchase of certain tests that already are being given.

The board approved, also, the employment of Miss Donna Harders, a member of the 1962 graduating class at Senior High School.

Board to Ask Council Aid On Playgrounds

A meeting with representatives of the City Council is being asked by the Board of Education in an effort to obtain assistance of the city street department in black-top surfacing of the Central Elementary School playground and certain areas of the playground at Lincoln School.

When directors began considering the surfacing projects this spring they understood that street department equipment would be made available and street department personnel — working on Saturdays if necessary — would assist in the job.

Monday, however, the board learned that apparently the Council's street committee hasn't authorized assignment of equipment and workers for the job.

BIDS HAD BEEN ASKED for supplying material and labor and the only proposal, for \$7,040, was received from H. J. Dunn Black Top Surfacing Co.

This figure, the board felt, might be reduced almost in half if street department assistance could be obtained. The equipment would be furnished without charge and workers would be paid on the city's time and one-half scale for Saturday overtime work.

Directors decided to defer action on the bid until later this month and, in the meantime, contact the Council and see if arrangements can be made for participation in the job.

THERE WERE SEVERAL other bid openings Monday night. Seven proposals were received on furnishing fencing for the Central Elementary playground. The apparent low bidder was Moore-Ham Machinery & Boiler Works, Minneapolis, quoting \$1,717. Action on these bids, too, was held over pending the outcome of the surfacing meeting.

Other fence bids were received from: Minnesota Fence & Iron Works, St. Paul, \$2,082; R. D. Cone Co., Winona, \$1,854; Century Fence Co., St. Paul, \$1,703; Crown Iron Works, Minneapolis, \$1,700; Anchor Fence Co., Minneapolis, \$1,681, and United Building Contractors, Winona, \$2,000.

CONTRACTS totaling \$4,992 were awarded for remodeling of the Jefferson School locker room.

P. Earl Schwab, Winona, received the general contract on its low bid of \$2,224. Other bidders were WMC, Inc., \$2,850, and Ralph Schermer, \$2,570.

The plumbing contract went to Charles J. Olsen & Sons on its low bid of \$2,768.

Other bids were from Sanitary Plumbing & Heating Co., \$3,718; Winona Plumbing Co., \$3,400; Kramer & Toney, \$3,688, and Frank O'Loughlin Plumbing & Heating Co., \$4,216.

TWO BIDS were received on supplying 163 athletic lockers for the Jefferson locker room.

Cem Products, Minneapolis, bid \$3,807 (with \$72 to be added for installation) and DeBourgh Manufacturing Co., Minneapolis, \$6,412, 92, assembled.

The bids were held over to allow the athletic department to inspect the Cem locker. Burmeister Co., Winona, was awarded a contract to furnish the public schools with fuel oil for 1962-63 on its low bid of 9.37 cents a gallon. Other bids ranged upward to 9.7.

NORTHWESTERN Hanna Fuel Co., received the contract for furnishing coal at \$11.44 a ton. Western Coal & Supply submitted the only other bid, \$11.58.

Bids will be received next month on new science equipment for Central Junior High School.

Cost has been estimated at \$31,690, of which 40 percent, or \$12,676, will be realized from National Defense Education Act funds. An additional amount of not more than \$400 will be spent for remodeling.

Douglas Tips 532 In Bermuda League

Mary Douglas fired 532 for Bottoms-Up Monday night in the Bermuda League at Westgate Bowl. She had a 108 single game. Team honors went to Five Spots with 912 and Lucky Strikes with 2,508.

Other 500s were: Yvonne Carpenter 517, Irene Bronk 504 and Leona Lubinski 502.

as secretary-accountant in the business office.

Her salary was set at the schedule rate of \$1.35 an hour.

SUMMER LEAVES of absence for 16 public schools employees who are employed less than a full calendar year were approved.

Board Clerk and Business Manager Paul W. Sanders explained that Public Employees retirement act provisions would call for a forfeiture of certain benefits during the period they aren't on the job unless they have been granted leaves of absence.

The leaves were granted eight cooks and eight secretaries for varying periods during the summer and state the board's intent for them to resume their duties in the fall.

Sanders was authorized to destroy certain records that are more than 10 years old.

He said that business office storage facilities are being taxed by the accumulation of now obsolete records.

State law permits destruction of cancelled checks, paid bills and correspondence after 10 years.

PAYROLLS APPROVED included those for homebound instructors, \$782.75; day-to-day substitute teachers, \$706.50; assistance in the English department, \$30; physical education assistants, \$71; educable class assistant, \$70; noon hour supervision at Washington-Kosciusko, Jefferson and Lincoln schools, \$585; driver training and adult evening class instruction, \$527.90; student cafeteria help, \$86.60, and attendance teacher, \$112.50.

Overtime payrolls for cafeteria supervision and cooks, amounting to \$16.50, and custodians, \$302.04, were approved.

PUBLIC SCHOOLS Crew Denied Bigger Increase

A request by public schools custodial and maintenance employees for more liberal salary increases than those granted this spring by the Board of Education was denied by the school board Monday night.

Earlier this year the board authorized an across-the-board increase of \$5 a month in salaries of custodians and maintenance men.

TO BECOME effective July 1, the new salary schedule provides \$330 a month for probationary employees and \$365 for those on regular status after satisfactory completion of one year's work.

Through its business agent, Kenneth L. Helm, Rochester, Local 314 of the American Federation of State, County and Municipal Employees asked that the schedule for the year beginning July 1 be raised to \$340 for probationary employees and \$380 after one year.

Received by the board last month, the union proposal also requested time and one-half over-time payments for work in excess of the 40-hour work week in effect for 13 weeks during the summer and the 45 hours worked during the remainder of the year, rather than the flat rate of \$2 an hour now in effect.

THE UNION also asked for payroll deduction of union dues and a \$25-a-month differential in the salary of John Duffy in recognition of his "versatility and part-time assistant supervisor capacity" on the maintenance staff.

Directors asked whether the administration had received any word from the custodians or the union since the proposal was made.

Superintendent of Schools A. L. Nelson and Clerk and Business Manager Paul W. Sanders each said there had been no follow-up on the requests.

After discussing the proposal directors voted unanimously to make no deviation from its previous action in allowing the \$5 increase.

ONE SALARY adjustment was granted in accordance with the salary schedule.

Henry Peplinski, who completes his probationary employment June 15 was granted an increase from \$225 to \$300, effective Friday.

Findings for plaintiffs were ordered by District Judge Arnold Hatfield in four divorce cases heard here Monday.

Each of the actions was brought on grounds of cruel and inhuman treatment and none was contested.

MRS. CLARA PAGEL, 59, 318 Center St., was granted a divorce from William Pagel, 50, they were married at Sioux Falls, S. D., in 1948.

Mrs. Pagel's attorney, S. A. Sawyer, called the plaintiff and Mrs. Leonard Carlson and Mrs. Katherine Sherman, Winona, as witnesses.

Pagel, who was not represented by counsel, testified in his own behalf and said he wanted to retain possession of the house. This was granted.

Findings also were ordered in cases brought by:

• Mrs. Carole Scott, 23, 288 E. 3rd St., represented by Richard Darby, against Jay A. Scott, 25, they were married in Winona Aug. 17, 1957, and have two children.

Mrs. Scott and Mrs. Louis Drussell, 318 McBride St., were witnesses.

• Henry Kroll, 69, Winona, against Mrs. Ruth Kroll, 65, Kroll and Betty Rasmussen were witnesses called by Kroll's attorney, C. Stanley McMahon. Mrs. Kroll was represented by P. S. Johnson.

The Krolls were married at Red Wing July 21, 1960.

St. Martin's Welcomes 46 at Potluck Supper

St. Martin's Lutheran Church welcomed 46 new members at a potluck supper Sunday in the church basement.

The arrangements were made by the board of elders. The pastors and their wives welcomed the new members.

The Rev. Emil Geistfeld and the Rev. Armin U. Deye gave short information talks at the supper attended by 150 people.

Runway Job May Be Under \$120,000 Total

The cost of lengthening the long runway to the northwest at Max Conrad Field may be under \$120,000 for the complete job, compared with an estimated \$150,000 for grading alone to the southeast.

That was the report made by City Attorney George M. Robertson Jr. to the City Council Monday evening when it passed a covering resolution for plans and specifications to be submitted to state and federal aviation officials.

State law permits destruction of cancelled checks, paid bills and correspondence after 10 years.

Market Drops, Gold Stocks Set Pattern

NEW YORK (AP)—A declining stock market accompanied by speculative strength in gold mining shares continued to be the pattern early this afternoon.

The gold shares are not represented in The Associated Press average of 60 stocks and this indicator was down 1.80 to 218.10 at noon with industrials off 3.00, rails off .30 and utilities off 1.00.

Gold stocks are a refuge in times of a stock downturn. Extra attention was focused on the golds by President Kennedy's conference with business and government leaders on the question of the continuing U.S. gold outflow.

Among other key stocks, losses were mostly fractional, but pervaded most sections of the list. A few declines went to 1 or 2 points.

The trend was mostly lower for steel, motors, oils, chemicals, electrical equipments, tobacco, airlines, electronics and building materials.

Most gold stocks touched new highs. Homestake advanced about 2 points. McIntyre-Porcupine more than a point.

AT&T and Du Pont fell more than 2 and Liggett & Myers nearly 2.

The "growth" stocks backed away more sharply. Polaroid losing more than 4 and IBM about 8.

Among autos, Ford was down more than a point and General Motors slipped fractionally.

Xerox was another 2-point loser. Among steels, Jones & Laughlin slipped more than a point while the three top steelmakers held their declines to fractions.

Oils were unchanged to slightly lower. The same pattern prevailed among rails.

Radio Corp. fell about 2. Sears, Roebuck declined a full point or more.

The Dow Jones industrial average at noon was off 7.95 to 587.22. Prices on the American Stock Exchange were generally lower.

Corporate bonds were mixed. U.S. government bonds were fractionally higher.

CHICAGO (AP)—(USDA)— Livestock: Wholesale buying prices 1/2 to 1 higher; roasting 2/2 to 3 higher; special dark white roasts 18-19 1/2; heavy hens 17 1/2-19 1/2; Plymouth roaster fryers 19.
